

CCCS PERSONAL EDUCATION PLANS (PEPS) PLEDGE OF COMMITMENT 2021-2022

At Coral Community Charter School, staff, students and families collaborate to develop PEPs for all enrolled students. PEPs contain both academic and social emotional goals for the school year. The purpose is to identify and record support provided by the school; determine when more intensive interventions or extension activities are necessary; and include families in their child's learning process. Specific interventions and extension activities are determined by looking at assessment results and information from teachers and staff and identifying learning gaps and strengths.

PEP conference times are scheduled on designated days on the school calendar **three times per year**. First, at the beginning of year, staff, students and families collaborate to develop academic and social emotional goals for both strengths and areas of need. Second, in the middle of the year, staff, students and families review PEPs with classroom teachers and revise as necessary. Third, at the end of the school year, students and teachers collaborate to share ideas for a summer PEP with the family.

I understand that attending PEP conferences with my child and participating in the development of a PEP is a required term of the school's charter. I understand that attendance of our student(s) at Parent Teacher Conferences regarding our student(s) Personal Education Plan is required and that our student(s) will be marked absent if they are not in attendance. **I pledge to attend with my student the three PEP conferences (once at the beginning of year and once at middle of the year) designated on the school calendar.**

CORAL COMMUNITY CHARTER SCHOOL WALKING PERMISSION SLIP 2021-2022

I give my child, who attends Coral Community Charter School, permission to walk to nearby parks, playgrounds, etc. Signing this slip is authorization for the 2021 – 2022 school year and for the duration of enrollment at CCCS.
