

Staff Involvement in Decision Making

The Board will encourage employee input for the betterment of NW BOCES. Staff will be sought to help in developing policies and regulations, in establishing goals and objectives, and in planning curriculum, services, budget, and facilities.

In devising rules and procedures for the operation of NW BOCES, administration will seek the suggestions of those employees who will be affected by the regulations.

The Administrative Director will develop channels for the communication of ideas among staff, administration, and the Board, and will inform the Board of staff opinion when presenting recommendations for Board action.
