

Cluster news from Seneca Valley for November 2017

Melissa Regan sworn in as new Cluster Coordinator 11/1/17.

Melissa met with NW CC Sarah Kessler to coordinate CIP testimony. Testimony included acknowledging the ground breaking ceremony for new construction, including Kingsview MS in the boundary study, advocating for a Lake Seneca addition.

BOE voted to include Kingsview MS in the boundary scope which opens up even more options for re-directing neighborhoods.

Melissa contacted every feeder school to introduce herself and establish a pattern of communication.

Melissa communicated with the cluster about protecting funds, upcoming treasurer webinar, and to encourage participation in the upcoming elementary report card feedback session. Information from the Delegate listserve is invaluable to pass on to the cluster schools.

Melissa is working with National PTA on account issues to be able to complete Board training.
