

Fire Investigators Strike Force

www.fisf.org

Minutes of November 9, 2016

Meeting opened by Stan Grygiel.

- A moment of silence was held in remembrance of our fallen friends and colleagues
- Stan reminded us that it is time for the annual drive at the Salvation Army. We are asking for donations to be dropped off by members who may have forgotten.
- Our financials total just over 16k
- FISF is soliciting its membership for involvement on the training committee
- May's training has been moved to the first week.
- A List for 2017 has been set. A reminder to track your own hours for CE

Mr. Bruce Swiecicki was our guest speaker. Bruce is from the National Propane Gas Association. Bruce covered many applicable codes including the DOT regulations in 49 CFR, OSHA and EPA. Bruce covered the properties of propane in relationship to pressure and temperature. He also covered the basics as a refresher including the necessary properties for HazMat incidents. Several videos displayed the problems of mishandled storage vessels.

Training lasted 2.0 hours, untested.

December's training is at Manzo's in DesPlaines, Il.

Respectfully Submitted by Jeff Wynn, Training Committee
