**OUR HISTORY**

In ten short years, VersaFrame Inc has striven to become one of Western Canada's premier manufacturers and direct sellers of metal roofing and siding products. As a privately owned Canadian company, we have a mandate to supply top quality products, industry leading service and factory direct pricing to the agricultural, commercial and residential sectors. Our focus on industry leading service has led us to expand from one manufacturing location outside of Edmonton, AB to over 15 fully operational manufacturing facilities across Western Canada, all in hopes of allowing us to better service our customer base with faster turnaround times and more convenient pickup locations.

By making VersaFrame Inc. your metal supplier of choice, we will be committed to ensuring that you are getting the best service and the best pricing in this competitive industry, all the while giving you the highest quality of products to fit your buiding needs.

We proudly manufacture a wide variety of metal roofing and siding profiles, along with any trim your project might require. Along with our various metal products, VersaFrame Inc. also supplies a wide range of roofing accessories to help finish your residential, commercial or agricultural project.
