

THE TEMPLE MAN

LUCIFERIAN ANTHROPOMORPHIC COUNTERFEIT

The purpose of this illustration is to suggest that a encrypted layer can be seen superimposed over the core of the breathe of the *District of Columbia*. It is of the outline of the *Temple of Solomon* but likewise in the fashion of the *Temple of Man*. This notion of the *Temple Man* is the work of the conceptualization of the anthropomorphic Temple-Man by Tony Badillo at www.templesecrets.info. He is the first to 'anthropomorphize' the *Temple of Solomon* with amazing correlations and perspective. Badillo surmises that the Temple of YHVH is an exact representation of His 'form' and 'likeness' of the Messiah. There is a head at the top from a west-east perspective. This head chamber, a perfect square or 'cube' is as is the *Holy of Holies* where the *Ark of the Covenant* was located.

Capitol Hill is the 'capital' which comes from the Latin, 'head' as in 'capital punishment'. There is the *Holies* is what contains The *Table of Bread*, the *Altar of Incense* and the *Menorah* Candlestick. These objects correlate to the core of the main organs of a human body that like the motifs, is where the stomach, the heart and the branches of the lungs as a *Menorah* represent the 'pneuma' or breath or Spirit of YHVH, the Holy Spirit, etc. The outside chambers of the core of the Temple functioned to store supplies and for priestly preparation. These correspond to the long arms of the body. At the end corresponding to the 5 digits of each hand, there were 10 total small portable receptacles of water that the priests used for the sacrifices. It spoke of how one was to handle the vessels of YHVH and enter in to His Presence, 'with clean hands and a pure heart'.

BOAZ & JACHIN

Boaz and Jachin were 2 copper, brass or bronze pillars which stood in the Porch of Solomon's Temple, the first Temple in Jerusalem. These serve as both the gonads and 2 testis of a man that have the seed of reproduction as did the pomegranates that decorated the capitals of the pillars portrays. The long shafts of the pillars represent the legs if one extends the length of the pillars to connect with the *Brazen Altar*. That was outside the Temple and the first motif entering from the outside of the camp of the congregation as it were. Is it no wonder how Jesus Christ could say of the Jewish religious leaders that were imposters, *Synagogue of Satan* and *Elders of Zion* that if they 'destroyed the Temple, He would raise it in 3 days'.

SOLOMON'S TEMPLE

Superimposed Anthropomorphic Man

Scripture speaks of the Body and Temple of Christ, as well as Believers of Jesus Christ whose 'body' is the Temple of the Holy Spirit.
