186 CFB Bets Totaling \$108,537! (Pages 6-7)Season Win Totals on Page 3, GOY and Week 1 on Pages 4-5

What Football Off-season???

Football season is fast approaching and right now you can already bet on just about any game in football this fall. That's right every single NFL side and total have been released by the Westgate sports book in Las Vegas. You can also bet nearly 200 CFB games right now including every single Week Zero and Week 1 game including totals (see pages 4-5). We have included in this issue our early projected sides and totals on every Week 0/1 game. Keep in mind, those numbers can change throughout the summer season.

In this issue you will also find pretty much everything you need to get a jump start on college football in 2022 including several season win total bets. We have already made nearly 186 bets in CFB as the sports books are releasing games, futures, and season win totals earlier and earlier each year. Do note we release many of our plays early to VIP customers. With each passing year, we have more influence on markets and if getting the absolute best number is important to you and you can bet very early in the week, VIP might be worth your while this season. It is \$499 and it is for all sports for 12 months. You will receive the picks via email and text. Note we are running a Early Summer Special with the lowest prices offered this summer. Those prices will go up Wednesday, July 6th (no exceptions!!!).

Enjoy the start to your summer! The next issue comes out Wednesday, July 13th. It will include our CFB 2022 preview with updated power ratings, projected point spreads on every single game, team-by-team previews, spring recaps and 200-plus bets!

Sincerely,

Brad Powers and Staff

Early CFB Power Ratings

CFB Season Win Totals at Draft Kings with Brad Powers' Early Numbers

Notes: The Open # column = opening season win number. The Open + Vig column = the opening number plus the vigorish. That means if the season win total opened at 6.5 with the normal -110 vigorish, it would be 6.5. However, if the season win total was 6.5 but the OVER was -120, the + Vig # would = 6.6. If the OVER was -130, the + Vig # would = 6.7. Similarly, if the season win total was 6.5 and the UNDER was -120, the + Vig # would = 6.4. -130 would equal 6.3, etc.

The Current columns = the current numbers as of May 27. The BP column is what we make the season win total.
