We are homeowners in Triple Tree ranch and are extremely concerned about the negative economic impact that this logging project would have on the value of our home and our view shed.

We purchased our home to be able to enjoy the beauty of the pristine Douglas fir/lodgepole pine forest that is directly in our backyard. As well as watching the incredible elk herd that moves through our property in the fall. We also love seeing the black bears with their cubs in the spring. This project ruins the habitat for these animals and countless others. We also enjoy the Triple Tree Trail that was extensively upgraded just a few years ago. So many people in the Bozeman community come to this area to hike, bike and ski. This project would be detrimental to this "last best place."

We would urge community members to attend the public meeting 7-9 p.m. on June 23 at Montana Department of natural resources and conservation the Bozeman unit office, 2273 Boc Hill Ct. #110 Bozeman to voice their concerns.
