SUBJECT: We are pleased to have **Jesse Barrus** of ITD District 5 present on the award winning **Diverging Diamond Interchange (DDI) in Chubbuck Idaho**. The project was a unique to Idaho because it is the first DDI designed and built in the state, but it also boasts uniqueness around the country being the first DDI to accommodate oversized loads. This presentation will explore the many benefits of a DDI to the area, the challenges both in design and construction, how it is operating today, and some of the lessons learned thru the process. This project was awarded the OCEA project of the year award by ASCE-SIS last spring.
