Ballet	Ballet is the technical foundation for all other dance genres and aims to create graceful visual entertainment. At Forte Academy of Dance & Music, we emphasize technical precision, posture and alignment, style, and theory.
Tap	Tap dancing is concentrated in the feet and ankles with complementary action from the arms, head, and other parts of the body. Metal taps are worn on tap shoes to create percussive sound in rhythm of the dance steps performed.
Ballet/Tap Combo	Elements of both ballet and tap classes (descriptions above) are combined into one class with 20 minutes of each genre.
Music FunTime	The Music Fun Time curriculum is specially designed to teach young children music theory, including reading music and basic piano performance in an individualized, small group setting.
Short Session	Contains elements of genres above but is offered with a 6 week commitment in Fall, Winter, & Spring sessions. These classes will have an in-class showcase only. (No recital)
