

## OCTOSPERSE ADS

### 1. Material / preparation and company designation

Company: Tiarco Chemical Company  
315 ECHELON ROAD  
GREENVILLE, SC 29605

**Emergency phone (CHEMTREC):** (800) 424-9300 **(CHEMTREC INTERNATIONAL):** (703) 527-3887  
**Industrial Health/Spill Emergency:** (706) 277-1300 Danny Welch ([dwelch@trcc.com](mailto:dwelch@trcc.com))

Date Printed: 11/19/2013  
Date Revised: 11/19/2013  
Supercedes: 03/27/2013

Usage: Industrial

### 2. Possible hazards

This material may cause slight eye or skin irritation. Vapors or mists may cause irritation of the nose, throat, lungs and headaches and/or nausea. This product is not for human consumption; use proper precautions.

### 3. List / data of components

Information on hazardous ingredients: No toxic chemical(s) subject to the reporting requirements of section 313 of Title III and/or 40 CFR 372 are present.

Chemical name: OCTOSPERSE ADS	%w/w
Product code: FG-SPE-21R	Hazard symbol: N/A
CAS-no. 37350-42-8	H-phrases: N/A
EC-no.: N/A	P-phrases: P273
Formula: Acrylic Polymer	42.5 – 50.0%
Water	50.0 – 57.5%

See section 16 for the full text of the Hazard symbols and Phrases.

### 4. First aid measures

**Inhalation:** Remove to fresh air immediately and consult medical attention from a licensed healthcare professional.

**Skin contact:** Wash affected area immediately in flowing water (warm if readily available) for at least 15 minutes (carefully remove contaminated or protective clothing while washing) and consult medical attention from a licensed healthcare professional.

**Eye contact:** Flush eyes immediately with plenty of water for 15 minutes including under upper and lower eyelids. Washing eyes within one minute is essential to achieve maximum effectiveness. Remove contact lenses after the first 5 minutes. Obtain medical attention from a licensed healthcare professional as soon as possible.

**Ingestion:** If conscious, dilute with 3-4 glasses of water (never give anything by mouth if victim is unconscious or having convulsions); seek medical attention from a licensed healthcare professional. Do not induce vomiting unless directed to do so by medical personnel.

## OCTOSPERSE ADS

### 5. Measures in case of fire

**Suitable extinguishing media:** Foam, CO<sub>2</sub>, Dry Chemical, Water Fog.

**Hazardous decomposition/combustion products:** Thermal decomposition should produce only normal hydrocarbon combustion products. Products of thermal decomposition may be harmful.

**Special protective equipment for fire fighters:** When water has evaporated, the residue will burn. Firefighters should wear NIOSH-approved self-contained breathing apparatus with full face piece, operated in positive pressure mode. Wear full firefighting protective clothing.

**Other information:** If ignited by excessive heat or open flame or when water has evaporated, this product will burn. Burning material may emit toxic fumes. Closed containers may rupture/burst when exposed to extreme heat. Care should be taken to avoid exposing the vessel to heat or open flames. Vent and aerate such vessels before entering for maintenance or cleaning.

### 6. Accidental release procedures

**personal precautions:** Use protective equipment. NIOSH-approved Self-contained breathing apparatus must be available in case of emergency. Use caution to avoid falls.

**environmental precautions:** Dike and contain spill for possible recovery and to prevent from entering waterways.

**methods for cleaning up / taking up:** Recover as much as possible; wash floors afterwards with water. Smaller spills may be wiped from surfaces or absorbed onto inert material and handled as solid waste. Place discarded material in closed, labelled containers for disposal. Do not allow material into sewers, on the ground or into any body of water. Measurement of certain physical properties and analysis for regulated components may be necessary to make a determination for product meeting the criteria of a hazardous waste. Must be disposed of in accordance with all local, state, federal and international regulations.

### 7. Handling and storage

Adhere to work practice rules established by government regulations (e.g. OSHA).

**Advice on protection against fire and explosion:** Closed containers may rupture/burst when exposed to extreme heat. Care should be taken to avoid exposing the vessel to heat or open flames. Vent and aerate such vessels before entering for maintenance or cleaning.

**Storage requirements:** Use reasonable care to avoid skin and eye contact. Do not eat, drink or smoke in working area. Food, beverages, and tobacco products should not be carried, stored, or consumed where this material is in use. Keep containers closed when not in use. Protect containers against physical damage. Store in a cool (0-38°C/32-100.4°F), dry, well-ventilated area away from combustible materials. Keep from freezing. If needed, stir before using. "Empty" containers retain product residue (liquid and/or vapor) and should be handled with caution. Any use of this product in a process should be evaluated to establish and maintain safe operating procedures.

## OCTOSPERSE ADS

### 8. Engineering controls

**Exposure limits:** No information available. Consult local authorities for acceptable exposure limits.

**Personal protection:** None necessary under normal conditions (adequate ventilation). If necessary, use NIOSH-approved respiratory protection. Recommended Local exhaust. Exhaust systems should be designed to move the air away from the source of vapor/aerosol generation and people working at this point. Ventilation must be adequate to maintain contaminant concentration below permissible exposure limits. Ventilation should be in accordance with OSHA regulations. Properly maintain and have readily available an eyewash/safety shower facility in the work area.

**Hand protection:** Use gloves impervious to this material. The breakthrough time of the selected glove(s) must be greater than the intended use period. NOTICE: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provide by the glove supplier. Before eating, drinking, smoking or using the toilet, wash face and hands thoroughly with soap and water.

**Eye protection:** Chemical goggles are recommended.

**Skin and body:** Gloves, Apron or protective coveralls may be needed to help prevent soiling of skin and clothing. Wear proper safety boots. Contaminated clothing and shoes should be cleaned before reuse or disposed of as necessary. It is recommended that a shower be taken after completion of workshift, especially if significant contact has occurred. Street clothing should be stored separately from work clothing and protective equipment. Work clothing and shoes should not be taken home.

### 9. Physical and chemical data

Test method:

**Form:** Liquid

**Colour:** Clear to pale yellow.

**Odour:** Mild

**Boiling point/range:** >100°C (212°F)

**Melting point/range:** 0°C (32°F)

**Flash point:** Noncombustible

**Flammability:** Non-flammable in aqueous form.

**Autoignition temperatures:** No information available.

**Explosion limits:** No known unusual hazards in a fire/explosion situation.

**Vapour pressure:** <17.5 mm Hg@ 20°C (68°F)

**Density:** 1200 kg/m<sup>3</sup> (typical)

**Solubility in water:** Complete

**Solubility in other solvents:** No information available.

**pH:** 3.8 – 5.0

**Partition coefficient (Coefficient of Therm. Expansion) :** No information available.

**n-octanol/water:** No information available.

## OCTOSPERSE ADS

### 10. Stability and reactivity data

**Conditions to avoid:** Stable. Avoid freezing, heat, sparks, open flames, electricity, impact and friction and other sources of ignition. Hazardous polymerization will not occur.

**Materials to avoid:** Strong oxidizing agents.

**Hazardous decomposition products:** Thermal decomposition should produce only normal hydrocarbon combustion products. Products of thermal decomposition may be harmful.

### 11. Toxicological properties

**Acute toxicity data:**

Oral LD50: No information available.

Dermal LD50: No information available.

Inhalation LC50: No information available.

**Irritation**

Skin: No information available.

Eye: Slight irritation.

Sensitization: No information available.

Genotoxicity: No information available.

**Other toxicological information:** No information available.

### 12. Ecological properties

**Ecotoxic effects:**

Fish: No information available.

Daphnia: No information available.

Algae: 96h-EC50 (Cell count): No information available.

### 13. Disposal conditions

**product:** Do not allow material into sewers, on the ground or into any body of water. Measurement of certain physical properties and analysis for regulated components may be necessary to make a determination for product meeting the criteria of a hazardous waste. 'Empty' containers retain product residue (liquid and/or vapor) and should be handled with caution. Must be disposed of in accordance with all local, state, federal and international regulations.

**Contaminated packaging:** No information available.

**Waste code number:** Please refer to your specific industry in the EUROPEAN WASTE CATALOGUE.

### 15. Regulations

*This section is not meant to be all-inclusive; selected regulations are represented.*

#### **SARA 313 SECTION OF TITLE III OF THE SUPERFUND AMENDMENTS AND REAUTHORIZATION ACT OF 1986 AND 40 CFR PART 372:**

To the best of our knowledge, this product does not contain substance(s) above the de minimus level which require reporting under this statute.

#### **COMPREHENSIVE ENVIRONMENTAL RESPONSE, COMPENSATION AND LIABILITY ACT OF 1980 (CERCLA, OR SUPERFUND):**

To the best of our knowledge, this product does not contain any substance(s) listed as "Hazardous Substances" which are subject to CERCLA Section 103 reporting requirements and which are listed in 40 CFR 302.4.

#### **Labelling in accordance with EC directives / German regulations**

##### **Labelling**

EC-no.: N/A

R-phrases: N/A

Symbols: N/A

S(afety) phrases: S61

Water hazardous class (Germany) (WGK): N/A

See section 16 for the full text of the Hazard symbols and Phrases.

# SAFETY DATA SHEET

According to EC directive 1907/2006/EC

Article 31

Page 6 of 6

## OCTOSPERSE ADS

### 16. Other information:

#### Legend:

#### Hazardous Material Identification System (HMIS) rating/codes:

Health – 1    Flammability – 1    Reactivity – 0    Protective Equipment - C (safety eyewear, gloves, apron)

HMIS uses a numbering scale ranging from 0 – 4 to indicate the degree of hazard.

Values: 0 = Minimal    1 = Slight    2 = Moderate    3 = Serious    4 = Extreme

An asterisk (\*) indicates chronic health hazards are associated with the chemical.

The proper protective equipment is identified with a letter corresponding to equipment listed after in parentheses.

#### Legend:

P273 – Avoid release to the environment.

S61 – Do not release product to the environment.

Do not handle until the Manufacturer's Safety Precautions have been read and understood. The safety data sheet is only intended to give a description of products with regard to safety requirements. However, it is not to be taken as a warranty or representation for which Textile Rubber & Chemical Co. or Tiarco Chemical assumes legal responsibility. Any use of this information and data must be determined by the user to be in accordance with applicable international, federal, state and local laws and regulations.
