

WILLY – APRIL 30, 2013

(A CHANCE AND CODY PUP)

Willy was one of 11 adorable chocolate puppies whelped on April 30, 2013. His parents are Adoration's Second Chance, SH WCX and Watermark's Texas Roadtrip, MH.

Our experience with the breeders- Owasco Valley Retrievers:

We feel so lucky to have met Chuck and Lorri. They are clearly top notch breeders and just wonderful people in general. We came across Chuck online, seeing that he had so much knowledge about Labrador Retrievers, training them to hunt, and good breeding practices. We initially contacted him to ask him questions about finding a fox red lab puppy. He didn't have a litter of fox reds himself, but communicated with us for weeks via email and phone, answering all of our questions. We eventually found a breeder who had fox red lab puppies and were ready to get one from him, when Chuck dug up some information for us on the breeder and on the genetic lines of the puppies' mother. We found out the she was in terrible health (rated poorly for hips – [Baxley's Ginger](#)) and the breeder was extremely negligent (DOA Outfitters), not following any of the proper procedures for raising healthy pups. Chuck helped us dodge a bullet there. Chuck, and his wife, Lorri, then felt bad for us that we were not getting a puppy, so they ended up giving us their own pick of the litter of chocolate labs, out of the goodness of their hearts.

We went over to their house a couple times while the puppies were growing up, and saw first-hand how well Chuck and Lorri take care of them. For example, our pup, Willy, started off being one of the smaller puppies and so they made sure to give him alone time with Mom to get enough milk until he caught up in size with his siblings. Willy is now almost 6 months old, and we are still in regular communication with Chuck and Lorri, and they

are helping us with training Willy. Every time Willy sees Chuck and Lorri, he is in completely blissful happiness- clearly his first 8 weeks of life with them were good ones!

Our experience with Willy:

Willy is handsome, smart, and athletic, with a terrific personality. It took us ONE day to potty train him, and TWO days to train him on the electric fence. These are just examples of how fast he has learned everything! He is very obedient and well-behaved. He is lightning fast, and has a coat that is just gorgeous! He gets along great with other dogs and people. The vet raves about how healthy and well he is doing; she was shocked when we brought him in the first day after getting him from Chuck and Lorri because there was nothing for her to do in the initial vet appointment- Chuck and Lorri had already done everything! We are so happy with Willy and with Chuck and Lorri that we are in line to get another puppy from them!
