

Of Which He Has Created

A place to feel at ease and calm,
it's kinda like reading a psalm,
after all it's his creation,
and it can be felt in all his nation.

Places like these should be protected,
never to be neglected,
we need to do our part,
and love it with all our heart.

Nature is like a maze,
it's where the animals graze,
it's where the flowers bloom,
and where the birds zoom.
