Welcome to the United All Star competitive cheerleading program. We are delighted you have chosen to become a part of a growing legacy as we enter our 11th season. We are devoted to making this another successful and memorable season. Our mission at United Tumbling Academy, LLC is to provide a stable learning environment for children to safely develop appropriate tumbling and cheerleading techniques, develop meaningful relationships, and have fun. We take pride in our responsibility to model and encourage self confidence, integrity, dedication, hard work, leadership, positivity, and sportsmanship.

United All Stars has earned numerous national titles over the years. In 2015, we took our first level 6 team to World's as they made United history placing 12th out of 20 teams in prelims on Day 1. In 2016, we proudly attended the D2 Summit in Tampa with 3 of our teams where our Youth placed 3rd. In 2017, we took all eligible teams to the D2 Summit in Disney where our Junior Level 3 team placed 4th out of 78 teams. In 2018, all eligible teams earned paid bids to attend the D2 Summit and our Senior Coed Level 4 team came home with the Champion Title earning them the National Championship rings. We also earned our first US Finals Title in the Junior Prep Division. These milestones are just a part of the rewards our athletes earn in our program. We always focus on helping our athlete's improve their skills and reach their full athletic potential but we feel United provides a much greater purpose by teaching our athlete's life long lessons. Our athletes will face situations where they learn to work together as a team to achieve common goals. We build character and self-esteem by teaching our athletes about friendship, work ethic, commitment, responsibility, accountability, and respect. We always strive to succeed but our program is about so much more than just winning. Our athletes, staff and families create memories that last a lifetime.

We owe our success to our amazing staff, which participate in yearly USASF training and educational conferences to stay current on all techniques, safety, and rules. Each squad will have a coach certified in the appropriate level. It is our goal to provide a quality, positive, and fun environment for our athletes and remain one of the top small programs in Ohio. We welcome you to United and hope you find this information comprehensive and valuable and choose to become a part of our United Family for your 2022-2023 season.

## Sudden Cardiac Arrest and Lindsay's Law Information for the Youth Athlete and Parent/Guardian

- Lindsay's Law is about Sudden Cardiac Arrest (SCA) in youth athletes. This law went into effect in 2017. SCA is the leading cause of death in student athletes 19 years of age or younger. SCA occurs when the heart suddenly and unexpectedly stops beating. This cuts off blood flow to the brain and other vital organs. SCA is fatal if not treated immediately.
- "Youth" covered under Lindsay's Law are all athletes 19 years of age or younger that wish to practice for or compete in athletic activities organized by a school or youth sports organization.
- Lindsay's Law applies to all public and private schools and all youth sports organizations for athletes aged 19 years or younger whether or not they pay a fee to participate or are sponsored by a business or nonprofit. This includes:
  - 1) All athletic activities including interscholastic athletics, any athletic contest or competition sponsored by or associated with a school
  - 2) All cheerleading, club sports and school affiliated organizations including noncompetitive cheerleading
  - 3) All practices, interschool practices and scrimmages
- Any of these things may cause SCA:
  - 1) Structural heart disease. This may or may not be present from birth
  - 2) Electrical heart disease. This is a problem with the heart's electrical system that controls the heartbeat
  - 3) Situational causes. These may be people with completely normal hearts who are either are hit in the chest or develop a heart infection
- **Warning signs** in your family that you or your youth athlete may be at high risk of SCA:
  - o A blood relative who suddenly and unexpectedly dies before age 50
  - o Any of the following conditions: cardiomyopathy, long QT syndrome, Marfan syndrome, or other rhythm problems of the heart
- **Warning signs** of SCA. If any of these things happen with exercise, see your health care professional:
  - Chest pain/discomfort
  - Unexplained fainting/near fainting or dizziness
  - Unexplained tiredness, shortness of breath or difficulty breathing
  - Unusually fast or racing heart beats
- The youth athlete who faints or passes out before, during, or after an athletic activity **MUST** be removed from the activity. Before returning to the activity, the youth athlete must be seen by a health care professional and cleared in writing.
- If the youth athlete's biological parent, sibling or child has had a SCA, then the youth athlete must be removed from activity. Before returning to the activity, the youth athlete must be seen by a health care professional and cleared in writing.
- Any young athlete with any of these warning signs cannot participate in practices, interschool practices, scrimmages or competition until cleared by a health care professional.

- Other reasons to be seen by a healthcare professional would be a heart murmur, high blood pressure, or prior heart evaluation by a physician.
- Lindsay's Law lists the health care professionals who may evaluate and clear youth athletes. They are a physician (MD or DO), a certified nurse practitioner, a clinical nurse specialist or certified nurse midwife. For school athletes, a physician's assistant or licensed athletic trainer may also clear a student. That person may refer the youth and family to another health care provider for further evaluation. Clearance must be provided in writing to the school or sports official before the athlete can return to the activity.
- Despite everyone's best efforts, sometimes a young athlete will experience SCA. If you have had CPR training, you may know the term "Chain of Survival." The Chain of Survival helps anyone survive SCA.
- Using an Automated External Defibrillator (AED) can save the life of a child with SCA. Depending on where a young athlete is during an activity, there may or may not be an AED close by. Many, but not all, schools have AEDs. The AEDs may be near the athletic facilities, or they may be close to the school office. Look around at a sporting event to see if you see one. If you are involved in community sports, look around to see if there is an AED nearby.
- If you witness a person experiencing a SCA: First, remain calm. Follow the links in the **Chain of Survival**:
  - ❖ Link 1: Early recognition
    - Assess child for responsiveness. Does the child answer if you call his/her name?
    - If no, then attempt to assess pulse. If no pulse is felt or if you are unsure, call for help "someone dial 911"
  - ❖ Link 2: Early CPR
    - Begin CPR immediately
  - ❖ Link 3: Early defibrillation (which is the use of an AED)
    - If an AED is available, send someone to get it immediately. Turn it on, attach it to the child and follow the instructions
    - If an AED is not available, continue CPR until EMS arrives
  - ❖ Link 4: Early advanced life support and cardiovascular care
    - Continue CPR until EMS arrives
- Lindsay's Law requires both the youth athlete and parent/guardian to acknowledge receipt of information about Sudden Cardiac Arrest by signing a form.
