

Today is Tuesday, April 18

To all our Dear Customers

Due to an unusual vessel congestion at FIT, and to maintain a safe operation for all, some containers from the Polar Ecuador are going to be block stacked and may be unavailable despite being fully released. We apologize for the inconvenience, and containers will be made available as soon as it is safe to do so. Port LFD will be extended ONLY for containers that are fully released at time of block stack.

All visitors to Florida International Terminal are required to follow the safety and security rules. Failure to adhere to the policies may result in immediate suspension of truck drivers. Please see the rules at this link <https://www.fitpev.com/about-us/safety-policy/safety-security-rules/>
