JOONG-GUN

The Virtual Dojang Introduction

Finally a patterns training tool that makes sense!

Learning a pattern has never been easier. Unlike other products, The Virtual Dojang's patterns training tool actually follows you around the dojang while you move.

When you turn, the orientation of the diagram on the screen/page turns with you. So rather than having to concentrate on which way you are facing compared to the instructions, you only have to focus on the movement itself.

Complete the movement, turn the page, and you will find the diagram is pointing in the right direction. Your current foot position is shown with white feet, and your finishing position with black feet. Lines and arrows help you understand how the feet should move.

On top of all that, there are pictures and helpful hints. There's even a helpful arrow pointing to where the front of the dojang is, to help you maintain correct orientation. At the start of every movement, check that the arrow is pointing to the front - if it is you know you are on track.

We have also simplified the movement and technique descriptions, the aim being to aid learning Taekwon-Do outside the Dojang.

Of course, nothing replaces learning Taekwon-Do from a qualified instructor. By all means use our tool, but for more detailed and technical help please see your instructor.

Meaning

JOONG-GUN is named after the patriot Ahn Joong-Gun who assassinated Hiro-Bumi Ito, the first Japanese governor-general of Korea, known as the man who played the leading part in the Korea-Japan merger. There are 32 movements in this pattern to represent Mr. Ahn's age when he was executed in a Lui-Shung prison (1910).
