Station Needs;

Station 56-1

Apparatus bay ceiling to begin soon

Station 57

Finishing Training Room

LOSAP;

Apparatus;

5605 waiting for quotes on rewiring from chassis to turntable. Had a loss of power, repairs were made but discovered the wiring control board is heavily corroded. Part has a undetermined delivery date. Truck remains in service.

5701 replaced a transmission sensor.

Equipment;

Training;

Drill ground instructor class has been rescheduled for both the weekday and week night classes

Career staff is developing a Tourniquet and Bleeding Control class for the Fire Companies

Reviewing the option to bring in the outside training used last year during the day for hands on training and then have the career staff in turn teach it at night to the respective companies. Based on the lack of attendance by either company on the others drill night, this appears the best way to get the most out of our training budget.

Looking into costs involved with moving forward with improvements with the Miller Ave firehouse training area. Need to permit tree removal and the pads with Zoning. Containers will be grandfathered. Will need architectural drawing for the roof prop.

Other;

Parking lots at both Stations are failing and need to be worked on. Ocean County Road Department no longer performs Schedule C Contracts with Fire Districts for parking lots.

Work on the career staff Operating Guidelines is progressing

Still awaiting the Brush truck acquired fm Bayville

Capital Appropriations Meeting on 12/12, **need someone to man the polls beginning at 1800hrs.**
