

We at Connections want to make sure that you are fully aware of what we are doing to be proactive about the health & safety of all of our students, families & staff members.

We want to make sure we are clearly communicating & demonstrating to our clients the extra precautions that we are taking very seriously.

In addition to our stringent, weekly cleaning protocol already in place. The entire gym was sanitized last week with hospital-grade disinfectant.

Weekly, the surfaces of all of our equipment are disinfected and our mats are also cleaned with bleach.

We have increased our nightly cleaning procedures to disinfect our equipment, and furniture. On an hourly basis we are now also wiping down all surfaces in our lobby & gym. We are requiring our coaches to wash hands upon entry as well as requiring them to use hand sanitizer between classes. Additionally, we have temporarily stopped the usage of hand stamps and will not be giving high fives as an extra precautionary measure.

We have installed two Jet air filtration systems in each end of the gym to further keep our air clean! The HEPA(High Efficiency Particulate Air) filter, filters out recirculated air to remove airborne particles. HEPA filters are also used in hospitals to provide patients with clean air.

Our clients have been extremely mindful about keeping children home if they have any cold symptoms. Connections is carefully tracking each absence.

According to the most recent information from the CDC, for most people, the immediate risk of being exposed to the virus that causes COVID-19 is thought to be low.

If you have any concerns or questions, please stop by the office.
