Aviation training solutions that work for you.

Membership Fees

Monthly - \$25.00 (w/ renters' insurance)
 *all pilots/students must hold aircraft damage liability insurance to operate RMFS aircraft

At Rocky Mountain Flight School our core personnel have been working and flying at Rocky Mountain Metropolitan Airport (KBJC) for more than a decade as flight instructors, aircraft mechanics and aviation customer service professionals. We maintain a diverse fleet of Cessna and Piper aircraft offered at reasonable rates.

Advanced Aviation Training Device (AATD)

Our Elite RC-1 AATD provides a better learning environment for instrument instruction. Up to 20 hours can be logged to meet the requirements for an instrument rating. Saving you time - no flying the aircraft into position for an approach and money - more instrument procedures per training hour.

If you are pursuing a Certified Flight Instructor Instrument (CFII) rating, all but a few training hours can be logged in the Elite RC-1 reducing the cost of obtaining your rating.

If you are currently an instrument rated pilot the RC-1 can be used to meet currency requirements.

flexible solutions for your aviation needs

Pleasure or Business

If your approach to flight training is for your own enjoyment and a slower more relaxed training environment is desired, our instructors will design a training plan that will be compatible with your schedule.

Flying a few times a week will not only get you in the air, but you can expect your private pilot certificate to be completed in about a year.

You can then use your new privileges for recreation, travel or to fly to your next business meeting.

Aviation Career

If your goal is to become an aviation professional and to quickly acquire your certificates and ratings our flight instructors are available on a daily basis to help you achieve your goals.

Train for all your required certificates and ratings from Private Pilot to ATP.

Successful flight instructor candidates will be considered for employment at Rocky Mountain Flight School.

MONTHLY SPECIAL!!!
 Contact us or check our website to see which plane has a reduced hourly rate for each month.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?

Make & Model	N-Number	Rate
