

Draft Memo

From: Kevin Gunn and Roy Thilly

To: SSC Members

Date: December 3, 2012

Re: Proposed Statement on Conclusion of the Project

We believe that it may be helpful for the SSC to agree on a statement concerning the EIPC project that will help others in understanding what has been done and not done. All SSC members will be free to comment on the project and study results, provided that they speak only for themselves and not the group. Some may choose to issue press releases when the final report is issued and/or to talk with the trade press. Having a statement that has been adopted by the SSC as whole would help provide context and consistency with the public while not circumscribing what members may wish to say.

A proposed statement is attached for your consideration. We do not think it would be productive to spend a great deal of time on this proposal at our meeting or to engage in substantial wordsmithing. If the group is not generally comfortable with the proposal, we will withdraw it.

Thanks for your consideration.
