## What's Been Happening?

October just flew right by and what a wonderful month it was! We were fortunate to have wonderful sunny weather during our trip to Thomasson Farms Family Farm! We brought back pumpkins to the classroom to be weighed and measured and charted the difference of all the pumpkins. The Halloween party was such a hit from wearing our costumes and the delicious treats to the entertaining bingo game! Over the years I have enjoyed teaching in various Jr. Kindergarten classes. I am thrilled and honored to be your child's new teacher. I look forward to making memories together and having you as a new friend throughout the school year.

Warmly,  
Mrs. Buckner

## It's November! What Are We Going To Do?

This month our Junior scientists will be investigating the lifecycles of owls and bats. What do they eat? What is inside an owl's nest? How do they both stay warm during the winter? How do they see in the night? We have so many questions that we will be answering this month!
