

CARBON BAKE FURNACE REFRACTORY COMPONENTS

Delta Refractories, Inc. is a leading manufacturer of Carbon Bake Furnace components nationwide.

Delta's in-house design department uses state-of-the-art solid modeling software along with a team of designers with over 70 years of combined experience in the Carbon Bake industry to ensure that our products meet or beat our customers specifications.

Delta manufactures replaceable parts for a majority of the carbon bake components. This includes, gaskets, castable plugs, plates, etc.

In addition to Exhaust Port and Flue Port (peep) Covers, Delta manufactures the following carbon bake components:

- Precast Head and Tub Wall Shapes
- Exhaust & Flue Port Blocks
- Pitch-Burn & Pre-Heat Thermocouples
- Gas Injectors
- Colling Manifolds
- Flue End Seals
- Plus much more...!
