## Outdoor LED Gasoline Price Kit

BEFORE

AFTER

AFTER

Protect your employees from possible injury and reduce your labor costs with the SCC LED gasoline price retrofit kit. Your gasoline prices can now be changed in seconds with very little effort. No more changing prices in the rain, wind, or snow with hard to use fonts, and changer arms. The seven segment LED displays are designed to be easily inserted into your existing signage. This product can be used in conjunction with our other outdoor LED products or stand alone with its own control box. Your return on investment is almost immediate when considering labor and sign repair costs, injury risks when changing fonts, and the added attention your sign will get from customers. So please contact us now so we can help you improve your business and curb appeal.
