TS23 Extrusions

TS23

The TS23 Extrusion is used for box trucks & trailers stretched banners. It is a light extrusion and cost-effective solution well suited for small frames (a few Sq. ft.) to large ones (Over 3,000 Sq. ft.)

It is easily installed on trucks and the graphics can easily be replaced. Ideal for both individual trucks or entire fleets.

First install for Signs By Tomorrow Springfield and another satisfied client...

Note the mix of stretched vinyl on the side and wrap for the back door. It is not either wrap or stretch frame...

...but a nice mix for the best results. Letting your customer change its marketing message when he wants it...
