

SELF-TAPE AUDITION INSTRUCTIONS:

 - Where you are located (city/state)

 - What is your connection (if any) to the Chickasaw Nation or Native American culture
 - Name of the role you are reading for

4. For videotaping the actual audition scene, please keep in mind that the ideal framing for your shot will be a medium close-up, with adequate front lighting so we can see your face clearly. Also make sure we can hear you clearly and that the background is free of distracting noise. You do not need to be concerned with the blocking or staging listed in the scene, just focus on the performance rather than the specific movement in the script.
