They do their best to produce pure, natural honey and to avoid contamination from sprays and chemicals as much as possible.

- Bright Cheese & Butter was established in 1874 by a group of local farmers who realized they had a surplus of milk each month. By the turn of the twentieth century, cheddar had become Canada's second largest export and there were 1,242 cheddar factories in Ontario alone! Bright Cheese is the oldest remaining of these cheddar factories and in the original location from 1874! Well known for their all natural, naturally aged cheese made with 100% local milk. Bright Cheese is made the old fashioned way with customer services at its finest!

In 1975, the milling operation is born after the organic matter is built back up to healthy levels and they acquire their first stone mill to grind their flour.
