

Western Ghat Expedition-6

1 - 2 Oct 2010

600 km

(kottenchery, munrod)

On an attempt to break the previous record of maximum distance covered in a day(300 km), I just set out one fine morning without any preparation or agenda. I couldn't do it. However, I managed to cover full length of kerala, trivandrum to kasargod, in 2 days.

Entry to mundrod forest near kottenchery (kasargod)

This mundrod forest is very strange. Lying in karnataka it can only be approached by a small forest trail through kottenchery.

***A simple stone wall seperating kerala & karnataka.
The board says – Mundrod forest, No trespassing!***

kottenchery hills

Like I said it was an impulsive un-planned trip. So had to cut short the expedition and pack my cycle back home. Reached back on the third day. Short and sweet!
