FOR SERVESAFE “Level 1”

CLASSES AT FOODWORKS ALLIANCE

“This interactive, instructor-led course is a must for your Person In Charge (PIC)! ServSafe’s Food Handler course encourages a personal commitment to safe food handling by driving home the connection between food worker behavior and foodborne illness. This knowledge increases the employee’s commitment to maintaining good personal hygiene. Students will learn the importance of preventing cross-contamination and understand which actions to avoid while handling food. Anthony will explain the importance of time and temperature controls as well as proper cleaning and sanitizing procedures. The PIC will be encouraged to embrace the importance of their roll when responding to an employee who is experiencing exclusion illness symptoms. Help your food workers feel more valuable in the food safety culture!”

You may register by mailing this form and check to FoodWorks Alliance.

Call (740) 647-1497 to make other payment arrangements.
