

26th November 2017

Year 3 Inter-House Volcano Competition Day

Dear Parents,

As part of our science topic '**Rocks and Soils**', we will be creating our own erupting volcanoes on Tuesday 12th December.

In order to create these exploding volcanoes please could you supply your child with the following ingredients by Sunday 10th December. Ingredients should be placed in a bag with your child's name and class:

1. A plastic cup
2. 3-4 tablespoons of baking powder
3. Small water size bottle full of vinegar

We will be providing the other necessary items needed to complete this activity. This will also be held as an inter-house competition. If your child wishes to decorate their volcano, please feel free to send in pictures of animals, tissue paper, foil etc.

If you have any questions or queries please write them in the communication book.

Thank you for your ongoing support.

Kind regards,

The Year 3 team
