stemmler

Stemmler Archery

Stemmler is the oldest continuous producer of archery equipment in the United States. For more than sixty years, we have been making bows and arrows and all forms of archery tackle. We feel that our success stems from our meeting the demand for materials and products of high quality.

PROMISES COUNT. Stemmler keeps its promises. We've promised to provide what sportsmen have looked for in quality archery equipment. We have been attentive to the sport we serve, providing important and necessary changes to meet the sportsman's demand. We've continued to deliver where others have failed. Delivery, in fact, has become one of our watch words.

THE DEALER COUNTS. At Stemmler, the dealer counts. He can count on guaranteed fast delivery of quality products and a sufficient back-up of stock to ensure customer satisfaction on re-orders. He can also count on delivery of modern packaging and displays which takes most of the work out of selling our product.

THE CUSTOMER COUNTS. Since selling the customer is the dealer's first priority, Stemmler is continually striving to make your job easier. We deliver and guarantee complete satisfaction of performance in the field, where it really counts. Merchandising of Stemmler products includes new packaging and other sales promotion techniques designed to let the manufacturer assist with more of the point of sales responsibility. Most of the information the customer needs, to let our products 'literally sell themselves,' will be furnished to you.

Stay with America's most experienced archery manufacturer. A progressive company where promises are kept today the same as over sixty years ago.

The Six-Sixty

The all-powerful SIX-SIXTY is the pride of the proficient bowman, commanding respect of the expert. It is a masterpiece of styling, balance and stability, perfect for target or the open range.

Design features reduce vibration, provide effortless draw and negligible recoil. The center-shot handle of exotic imported wood has a superbly formed pistol grip that incorporates a comfortably blended thumb rest. It is hand rubbed to a satin finish.

The SIX-SIXTY has 1-3/4" limbs of fiberglass laminated to inner strips of precision tapered selected maple, providing a remarkably smooth draw. There are laminations at the bow tips for extra reinforcements.

Model No. 2420
Draw weight 30-50 lbs.
Draw length 30 inches
Bow length AMO 66
Left-hand model available.

Hunting and Field Bows

Stalker

Once in a lifetime, the perfect hunting bow comes along. The STALKER, the ultimate companion for the professional archer who puts his skill on the line. In field, or forest, the odds are with the hunter who carries this superb bow.

Strength, stability and effortless draw all combine to add pleasure and satisfaction for the bow hunter who is tired of second best. No compromise on quality or materials results in one of the best hunting bows ever manufactured.

Design features include a full working recurve, laminated fiberglass over selected maple, pistol grip handle with fitted thumb rest, added laminations at the tips for extra strength and the assurance that there's over 60 years of experience that stands behind the STALKER.

Model No. 2440

Draw weight 45-50-55 lbs.

Draw limit 30 inches

Bow length AMO 54

Left-hand model available.

Jaguar

When the experienced hunter takes to the field or forest, he depends on two things, his skill and his bow. He can't afford to have either let him down. The JAGUAR is one of the most dependable hunting bows on the market, and considering its medium price, is perfect for the bowman who doesn't want to compromise quality.

Its lightweight adds to its versatility but doesn't effect the strength of its recurved limb design. Superior stock and laminated fiberglass present an appearance of hand rubbed beauty. The serious bow hunter can take pride in the JAGUAR, secure in the knowledge that it will complement his skill.

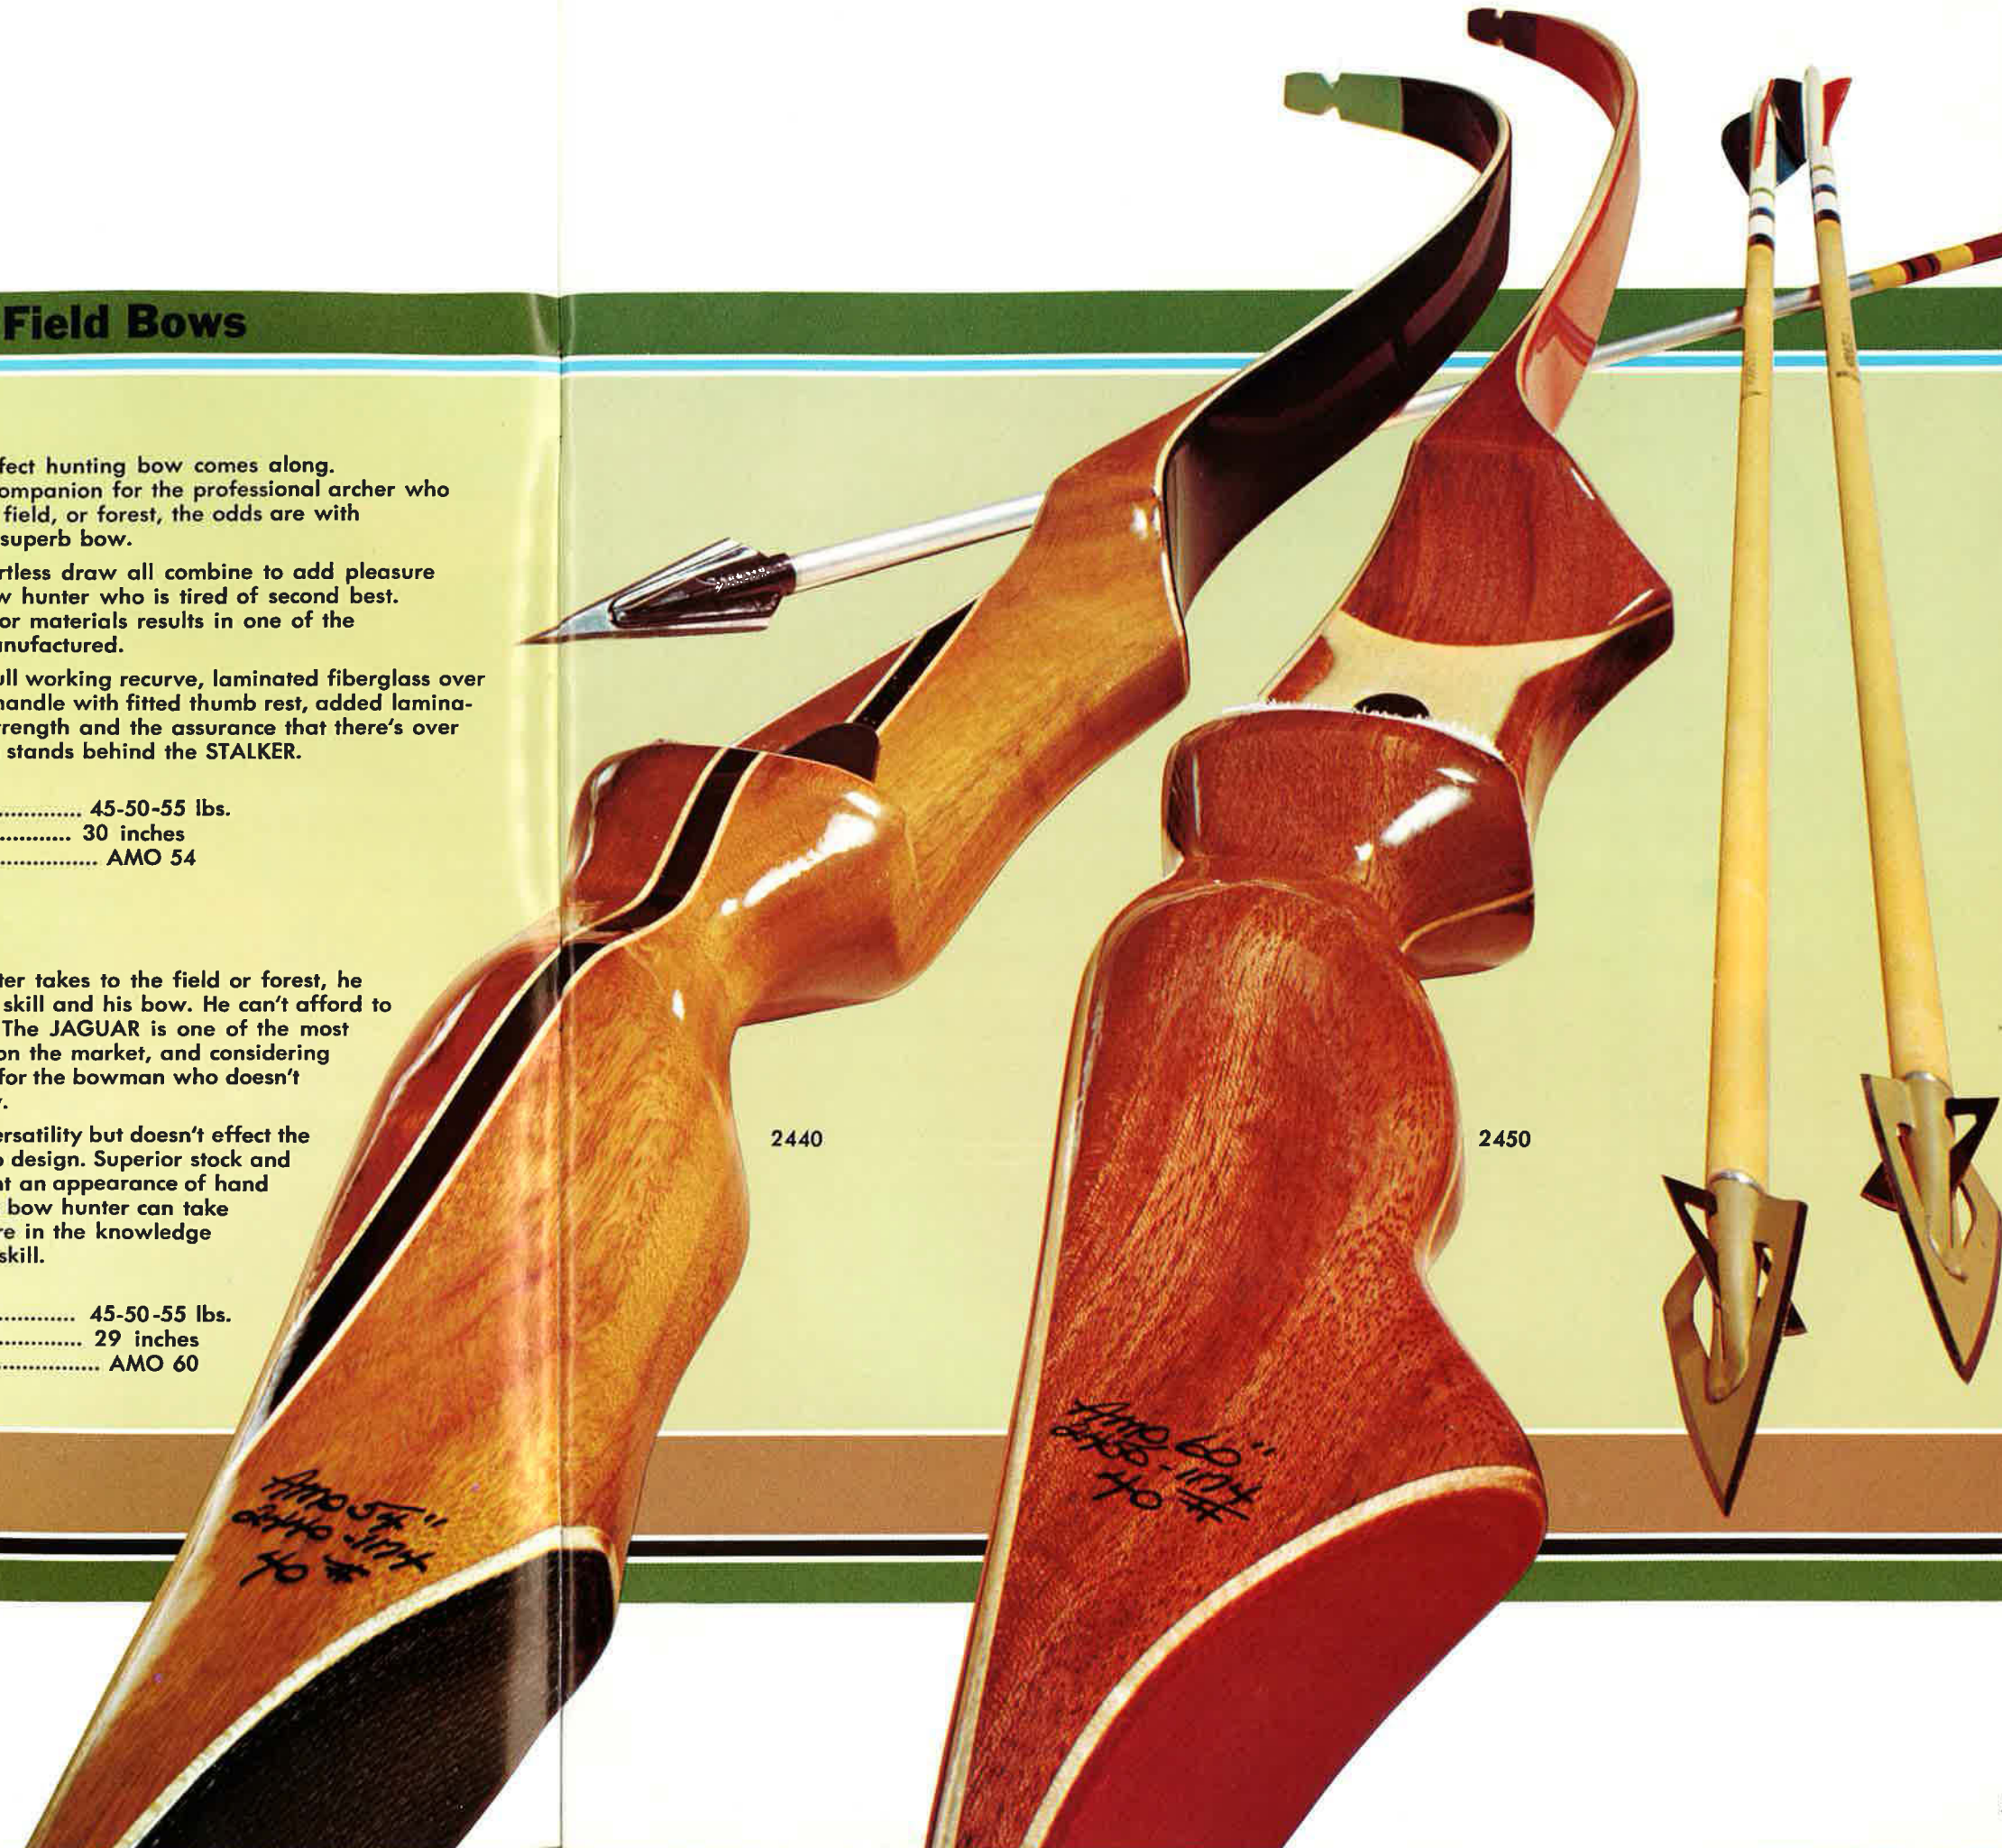

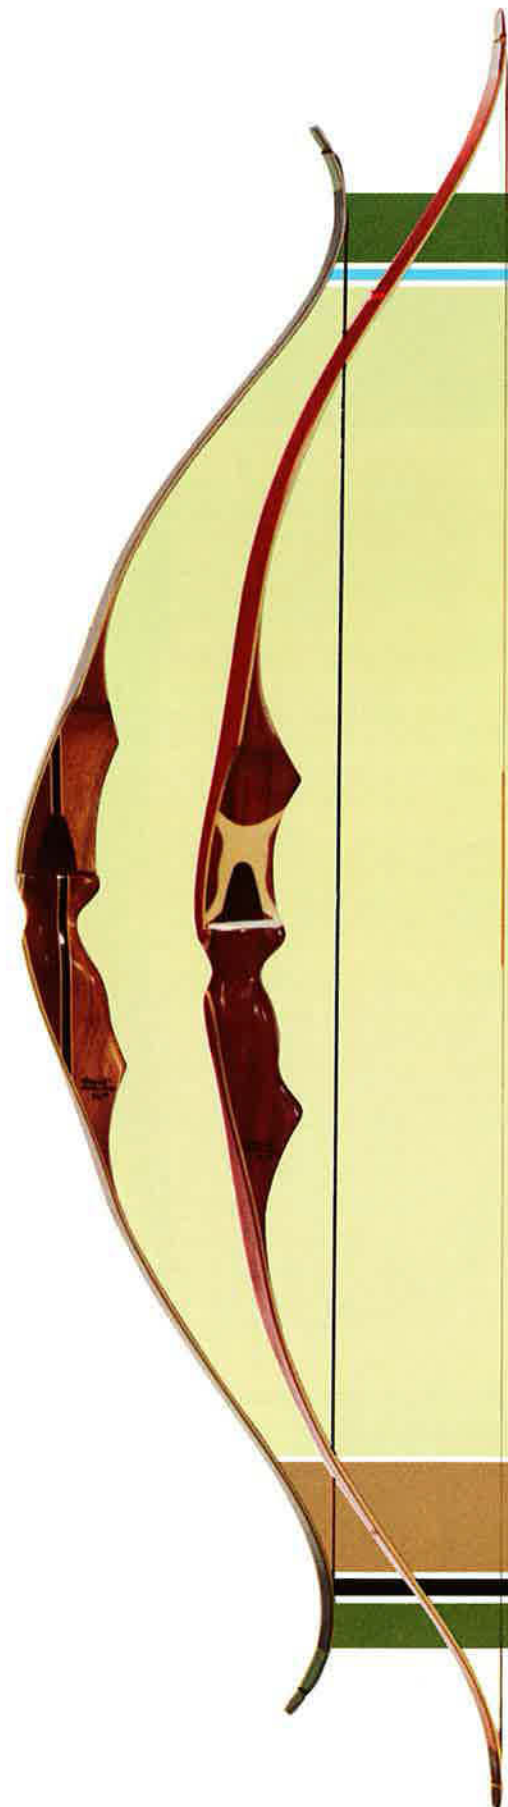

Model No. 2450

Draw weight 45-50-55 lbs.

Draw length 29 inches

Bow length AMO 60

Left-hand model available.

Field and Target Bows

Monarch

When the skilled archer demanded a truly versatile bow, Stemmler responded with the Monarch. Whether nocking a target or hunting arrow, this bow demonstrates how design features can be perfectly blended to provide outstanding performance.

No compromise on quality either. Seldom will you find a moderately priced bow that delivers the punch of Monarch. Sight down its wide window, feel the powerful draw of full-working, recurved limbs.

To ensure consistent accuracy, a professionally sculptured handle incorporates a contoured thumb rest to aid in a smooth draw and provide stability on release.

Model No. 2430
Draw weight ... 25-50 lbs. Draw limit ... 29 inches
Bow length ... AMO 64 Left hand model available

Squire

Like the West Wind, the SQUIRE is designed to carry your arrow to the target with ease and grace. If you've never felt the thrill of the sport of archery, but want to get started in the right direction, this is the perfect bow for you. Even though we've designed it as a beginner's bow, we haven't skimped on quality or professional features.

With a bow like this, it won't take you long to gain proficiency, and when you do, you'll appreciate the center pistol grip, powerful cast and a durability that will give you years of enjoyment on the range.

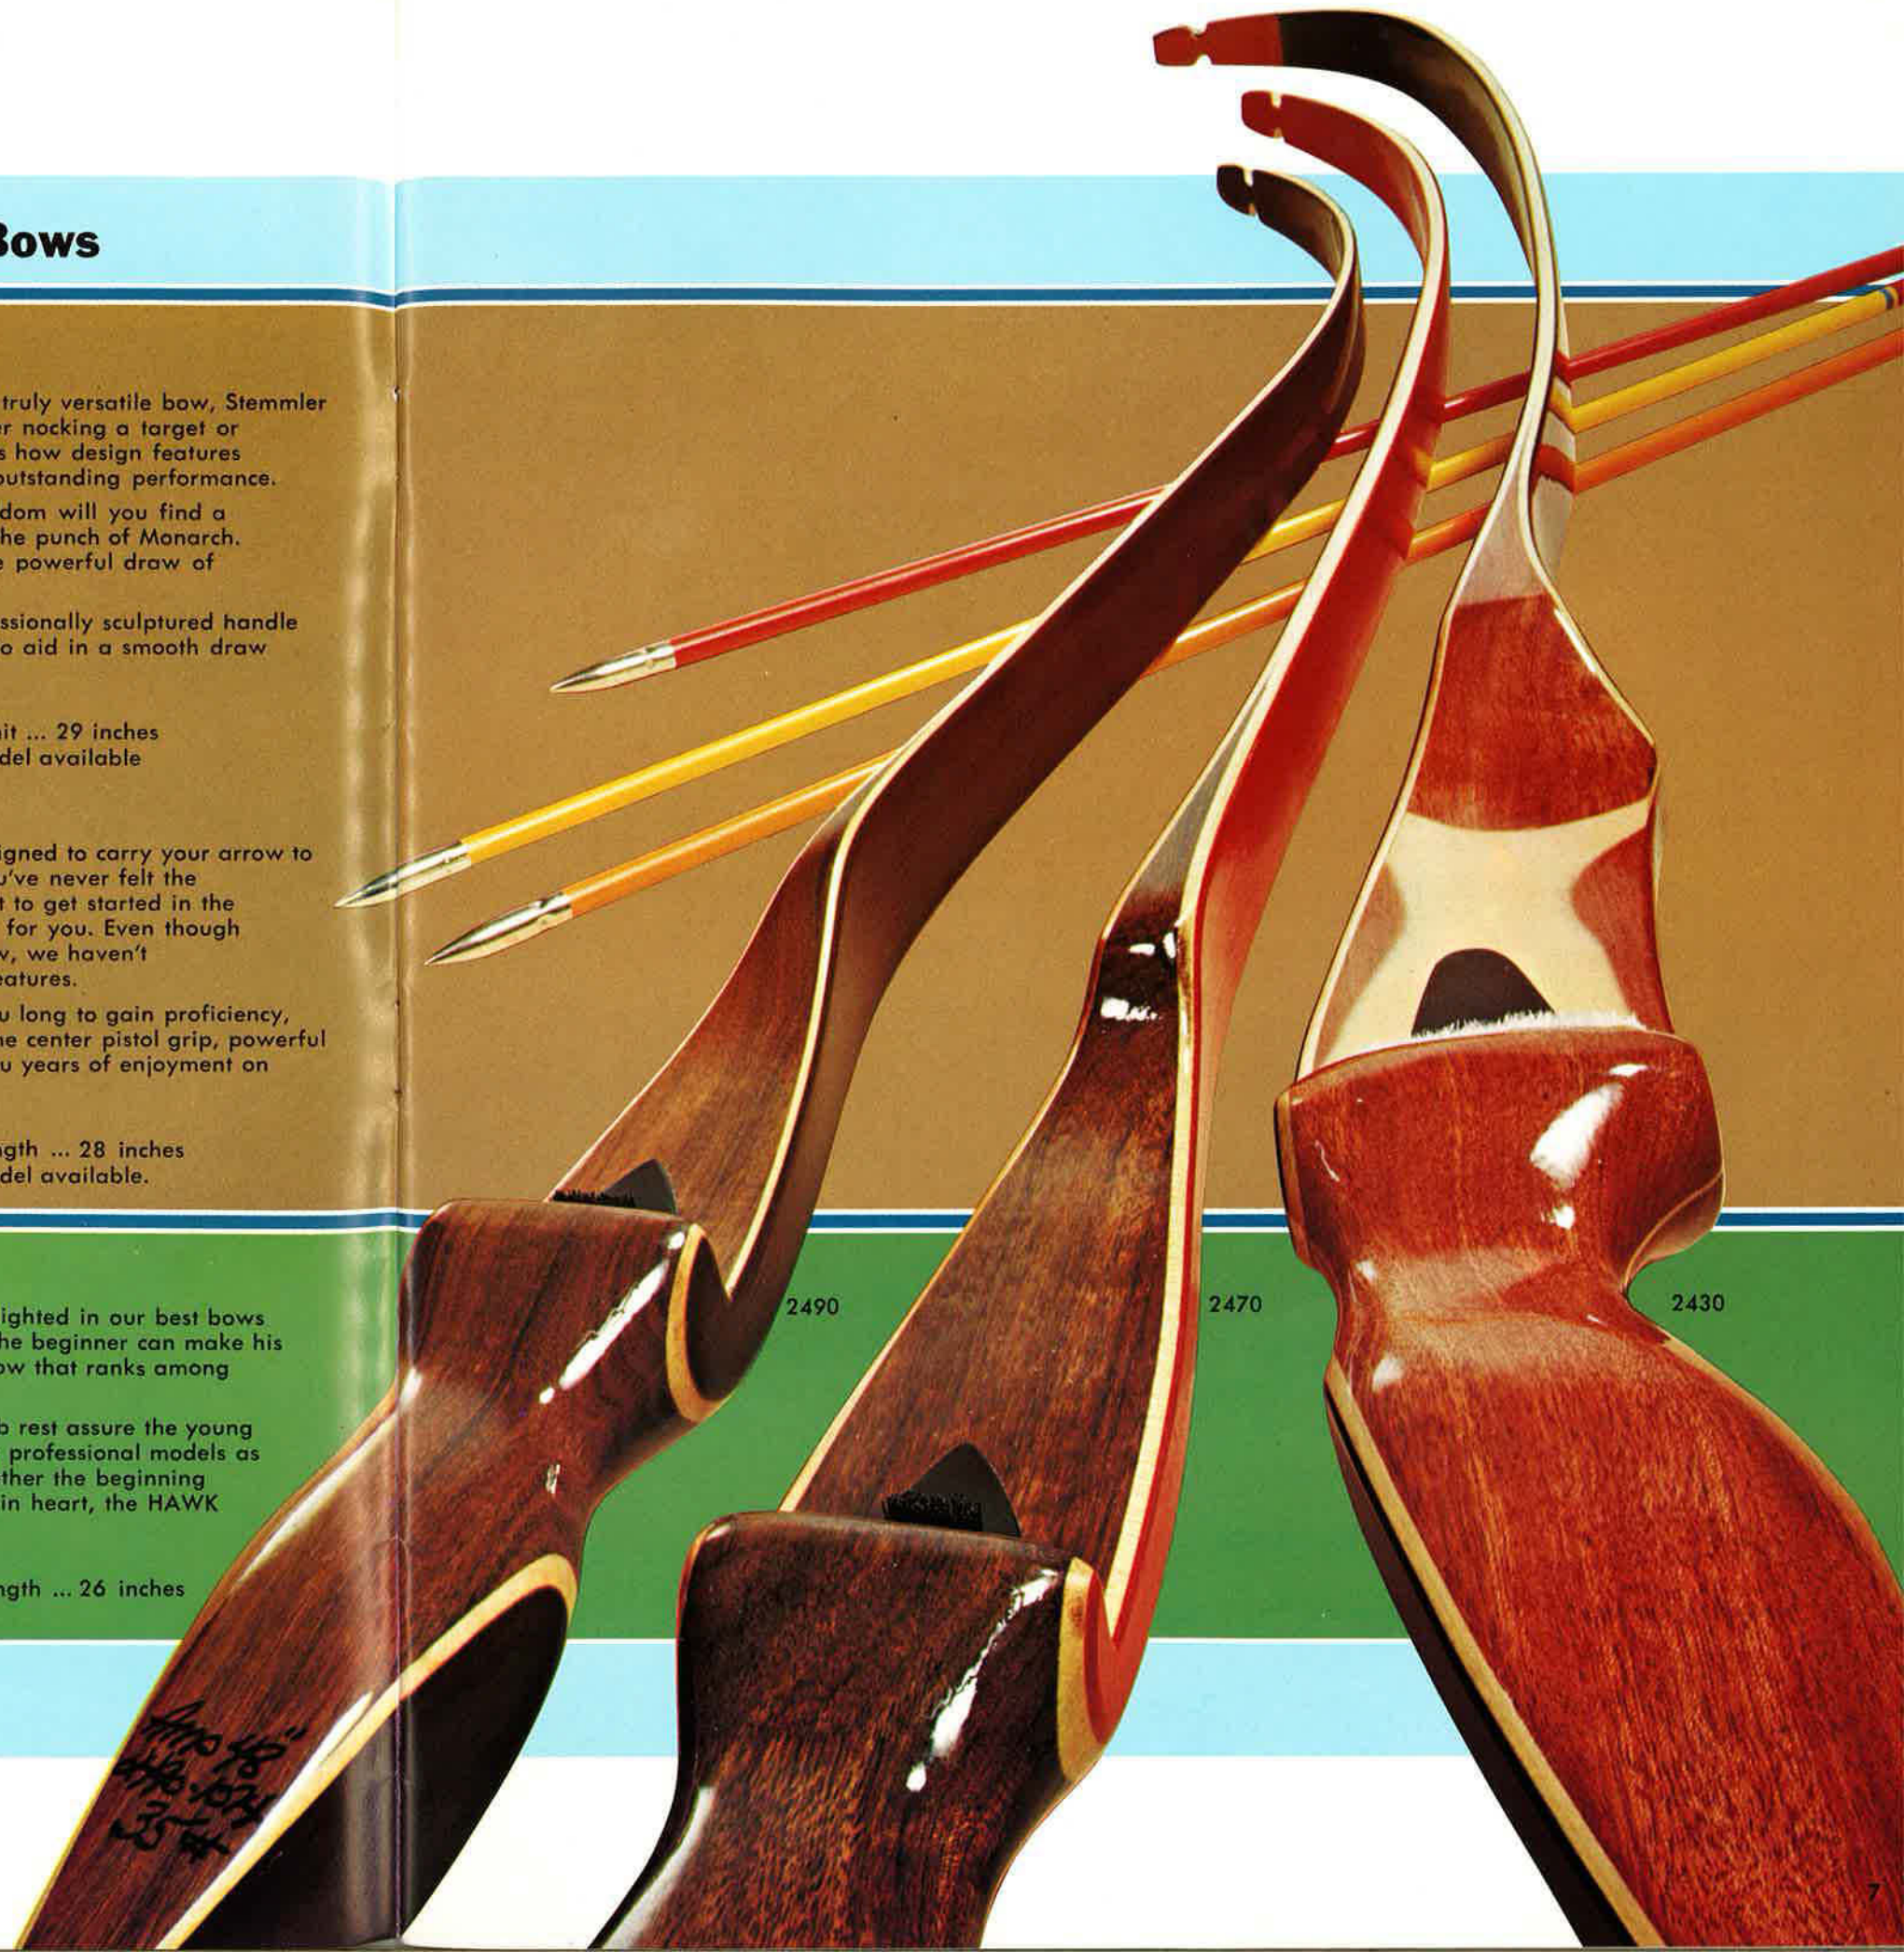

Model No. 2470
Draw weight ... 20-40 lbs. Draw length ... 28 inches
Bow length ... AMO 60 Left-hand model available.

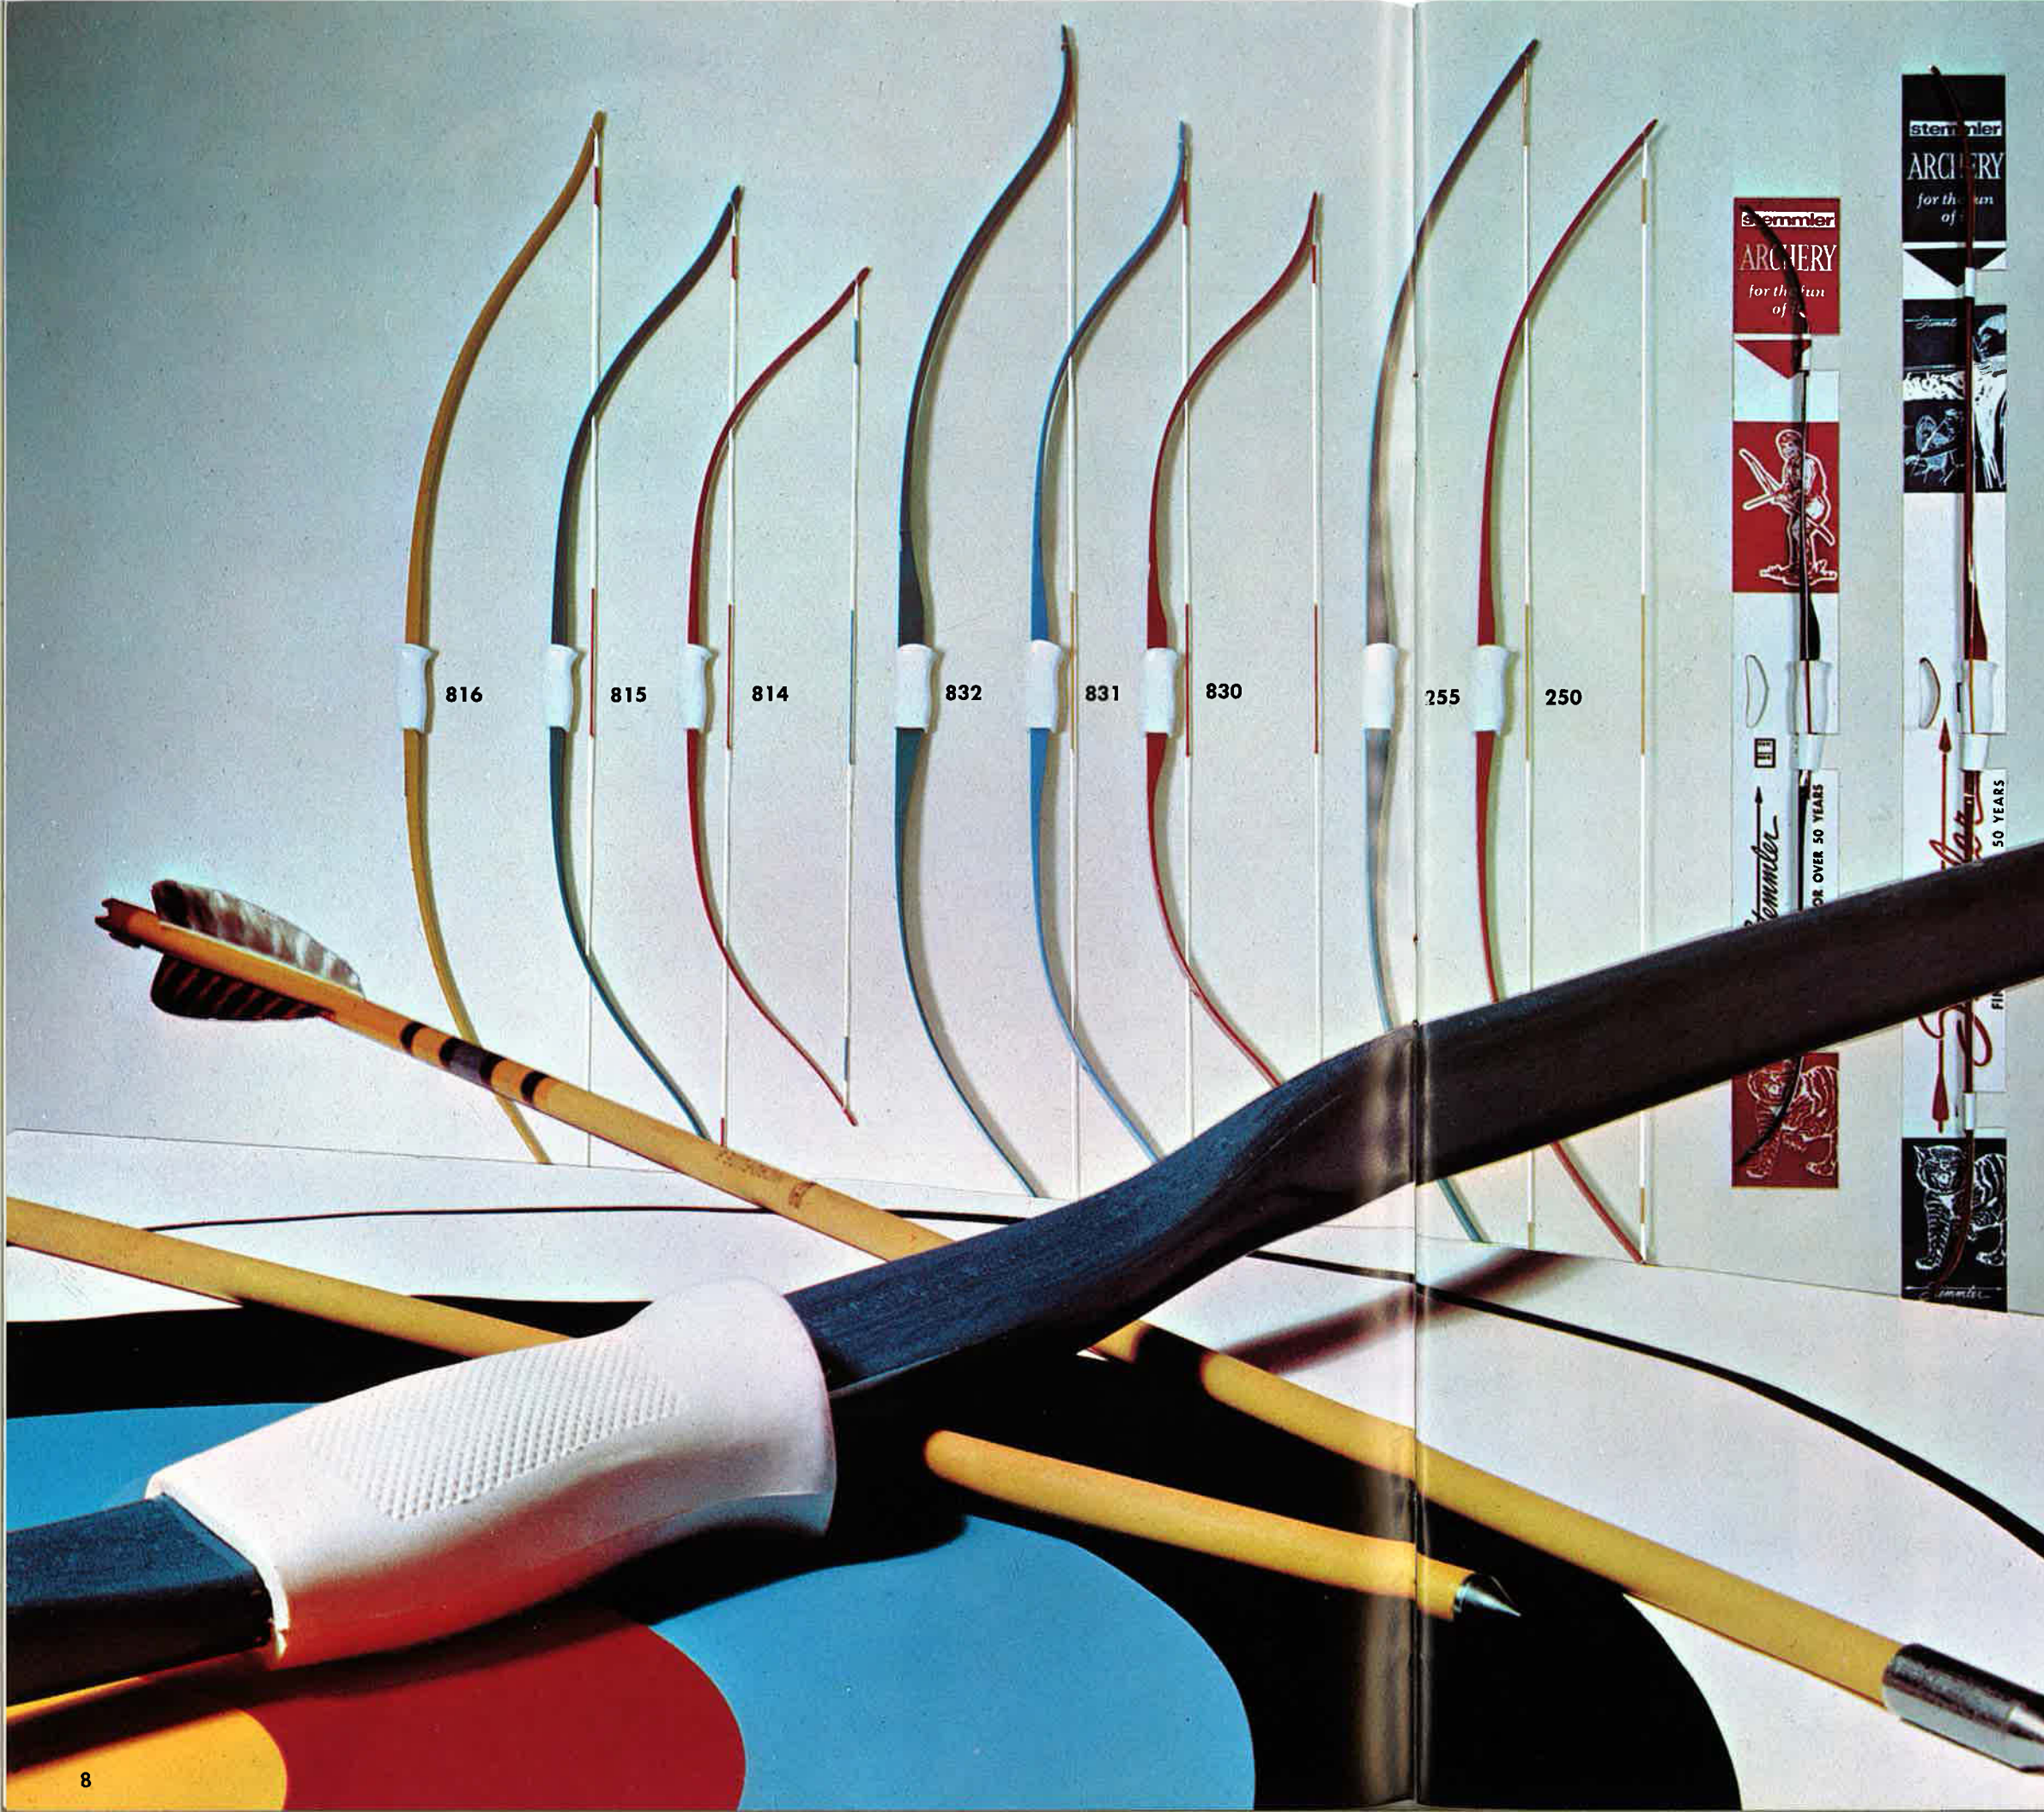

Hawk

Many of the innovative features highlighted in our best bows are incorporated in the HAWK. Now, the beginner can make his debut in the sport of archery with a bow that ranks among the finest anywhere.

The pistol grip handle and fitted thumb rest assure the young bowman an easy progression to more professional models as he gains proficiency in the sport. Whether the beginning archer is young in age, or just young in heart, the HAWK is the perfect bow to get started.

Model No. 2490
Draw weight ... 20-35 lbs. Draw length ... 26 inches
Bow length ... AMO 48

Solid Fiberglass Bows

Years of experience have resulted in our production of the finest glass bows on today's market. Both recurved and straight limb models are handcrafted from pre-stressed and hand laid fiberglass strands. Our process ensures maximum arrow cast as well as bows that are practically unbreakable.

DELUXE RECURVED FIBERGLASS BOWS

Our semi-pistol grip allows comfortable and accurate shooting. Six-inch center shot window eliminates arrow whip. Deluxe, double looped, Dacron Bow String. These three bows offer the finest in beauty and style at a moderate price.

Number	Length	Draw Weight #
830	AMO 46	18 to 20
831	AMO 52	25 to 35
832	AMO 58	25 to 50

POPULAR PRICED FIBERGLASS BOWS

Beautifully finished fiberglass bows with dual arrow rests for right and left hand shooters. Molded plastic handle and braided dacron bowstring.

As above with Custom Bow String		
822	AMO 52	20 to 35
823	AMO 58	25 to 40

STRAIGHT LIMB FIBERGLASS BOWS

Popular school and camp bows with straight limbs. Great for beginners and constructed to take playground abuse.

Number	Length	Draw Weight #
250	AMO 52	20 to 30
255	AMO 58	25 to 40

STEMMLER ARROWS.

As the sport of archery develops more sophisticated bows, the demand for arrow materials, styles and types becomes more varied. In order to serve these demands, we have one of the broadest arrow selections in style, price and versatility available anywhere. Ordering arrows calls for care. Here are some important things to keep in mind. The length of an arrow is measured from the bottom of the nock slot, to the back of the head. When ordering arrows complete, we need to know the arrow length, and the draw weight of the bow to be used. All of our arrows conform to AMO arrow standards. Proper arrow selection is extremely important for consistent performance.

SWAP point system

Every archer soon recognizes the need for three arrow types when in the field or on the range; HUNT, FIELD and TARGET. The SWAP-POINT system is designed to meet this need head on, creating greater versatility and economy. No longer does the archer have to be restricted to the permanently bound head. No special tools are required, the threading is standardized.

THE ELEMENTS:

No. 8911 INTERNAL ADAPTER.

Designed to fit (internal diameter) fiberglass and aluminum shafts. When ordering be sure to specify shaft size, or the sizes of your present stock.

No. 88 BROADHEAD ADAPTER. Has an external taper that matches the internal taper of our hunting heads (92, 95, 96).

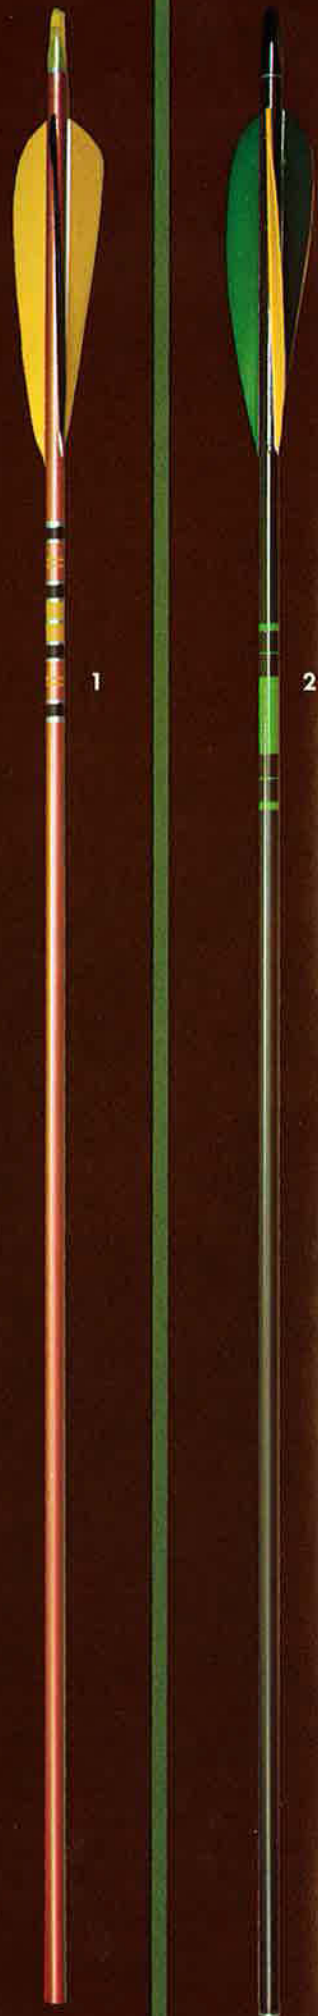

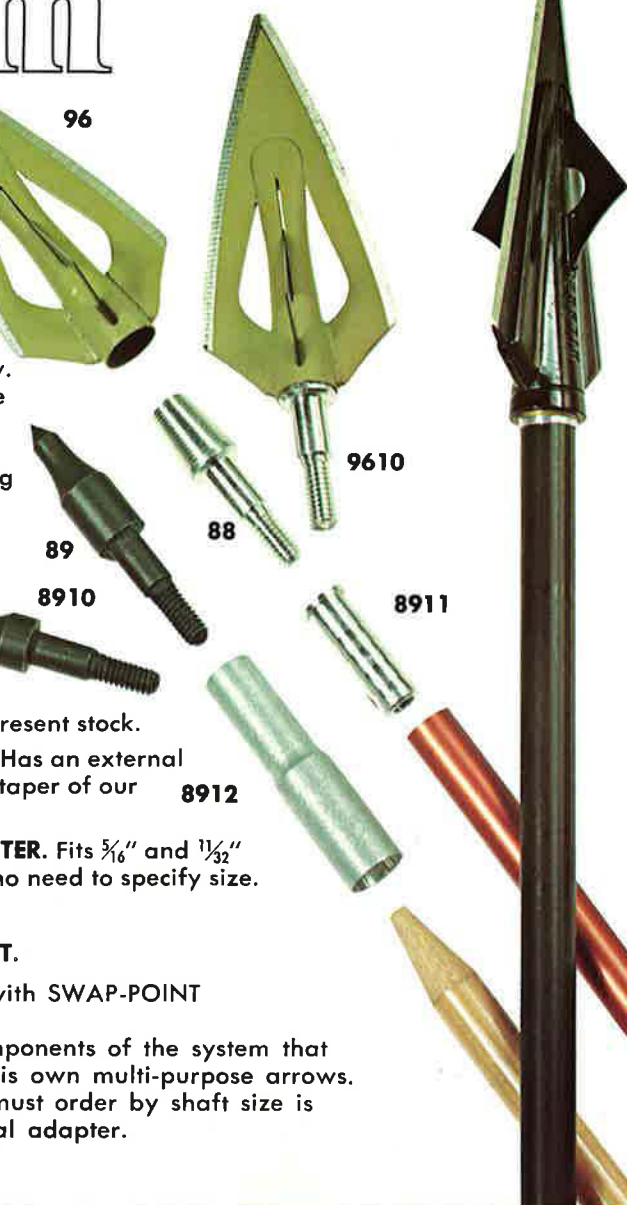

No. 8912 WOOD ARROW ADAPTER. Fits $\frac{5}{16}$ " and $\frac{11}{32}$ " shafts. When ordering there is no need to specify size.

No. 89 FIELD SWAP-POINT.

No. 8910 TARGET SWAP-POINT.

No. 9610 RAZORHEAD fitted with SWAP-POINT broadhead adapter.

We now have in stock all components of the system that enables the archer to create his own multi-purpose arrows. The only element where you must order by shaft size is No. 8911, SWAP-POINT internal adapter.

The Arrow For The Most Demanding Archer

1 STEMMLER 'AUTUMN ORANGE' ALUMINUM ARROWS

New AUTUMN ORANGE, non-glare, anodized shaft in sizes for the lightest recurve and all compounds. Stemmler Swap-Point System offers an interchangeability of arrow points to meet the needs of both TARGET ARCHERS and BOW HUNTERS. This EASTON XX75 shaft provides the ultimate in precision and quality. Premium turkey feather fletching, and Pro Fletch Vanes available in full length and specified draw length. Bow draw weights 30/35, 35/40, 40/45, and 50/55.

No. 9010 STEMMLER 'AUTUMN ORANGE' XX75 ARROWS. 1 Dozen Pack. For those who do custom work, these arrows are packed full length with (No. 8911) internal adapters in a separate packet for shop installation. Specify bow draw weight.

No. 9020 STEMMLER 'AUTUMN ORANGE' XX75 ARROWS. 1 Dozen Pack. Fitted with internal adapter. Swap-Point components may be purchased separately for arrow versatility. Specify arrow length and bow draw weight.

NOTE: Add suffix 'P' to style numbers for Pro-Fletch Vanes.

2 STEMMLER EASTON ALUMINUM ARROWS.

No other material lends itself to closer tolerances, and better matching between spine and weight than aluminum. Experienced tournament archers and hunters count on the Easton Swift and Game-Getter shafts for these demanding qualities. A new archer delights in the difference in performance when he first steps up to aluminum. Fletched with premium turkey feathers. All of our aluminum arrows accept our Swap-Point System.

TARGET ARROWS. A good arrow to select for excellent economy, high quality and that competitive edge. Available in full length 26", 28" and 31" draw lengths. Bow draw weights 25/30, 30/35, 35/40 and 40/45.

No. 9210 STEMMLER EASTON ALUMINUM ARROWS. 1 Dozen Pack. For those who do custom work, these arrows are packed full length with (No. 8911) internal adapters in a separate packet for shop installation. Specify bow draw weight.

No. 9220 STEMMLER EASTON ALUMINUM ARROWS. 1 Dozen Pack. Fitted with Swap-Point target points. Specify arrow length and bow draw weight.

HUNTING AND FIELD ARROWS. The popular Easton Game-Getter Shafts Anodized Green for both field use and bow hunting. Available in full length; 29" and 31" draw lengths. Bow draw weights 40/45, 45/50 and 50/55. Also in Pro-Fletch Plastic Vanes. Add suffix 'P' to style number for plastic fletching.

No. 9200 STEMMLER GAME-GETTER ALUMINUM ARROWS. 1 Dozen Pack. For those who do custom work, these arrows are

packed full length with (#8911) internal adapters in a separate packet for shop installation. Specify bow draw weight.

No. 9250 STEMMLER GAME-GETTER ALUMINUM HUNTING ARROWS. 1 Dozen Pack. Fitted with Super Hilbre hunting points. Specify arrow length and bow draw weight.

No. 9255 As above 1/2 dozen pack.

No. 9260 STEMMLER GAME-GETTER HUNTING ARROWS. 1 Dozen Pack. Fitted with Razorhead hunting points. Specify arrow length and bow draw weight.

No. 9265 As above 1/2 Dozen Pack.

3 STEMMLER DURAFILITE YELLOW FIBERGLASS ARROWS.

Fiberglass arrows have no match for toughness. They will not warp, and for strength in the field or in schools and camps they are tough to beat. The Durafilite yellow shafts are the finest fiberglass shafts on the market. We heartily recommend them for schools, camps and hunters. All of these arrows accept our Swap-Point System.

TARGET ARROWS. Durability and consistency combine to make this arrow a top performer for the accomplished archer and an economical arrow for the demands of school and camp use. Available in full length 29" and 31" draw lengths and 25/30, 30/35, 35/40 and 40/45 draw weights.

No. 8010 STEMMLER DURAFILITE ARROWS. 1 Dozen Pack. For those who do custom work, these arrows are packed full-length with (No. 8911) internal adapters in a separate pack for shop installation. Specify bow draw weight.

No. 8020 STEMMLER DURAFILITE ARROWS. 1 Dozen Pack. Fitted target points, #8910.

No. 8025 As above in 1/2 dozen pack.

HUNTING AND FIELD. Fitted with Swap-Point components and furnished in bow draw weights suitable for pre-season field practice and in-season hunting use. Available in full length, 29" and 31" draw lengths. Bow draw weights 40/45, 45/50, 50/55 and 55/60. Also comes with Pro-Fletch Vanes. Add suffix 'P' to style number for plastic vanes.

No. 8030 STEMMLER DURAFILITE FIELD ARROWS. 1 Dozen Pack. Full length shafts with #8911 internal adapter and #89 field points in separate packets.

No. 8510 STEMMLER DURAFILITE HUNTING ARROWS. 1 Dozen Pack. Full length shafts with No. 8911 internal adapter and #88 broadhead adapter in separate packets. Specify bow draw weight.

No. 8550 STEMMLER DURAFILITE HUNTING ARROWS. 1 Dozen Pack. Super hilbre heads attached. Specify arrow length and bow draw weights.

No. 8555 As above in 1/2 Dozen Pack.

No. 8560 STEMMLER DURAFILITE HUNTING ARROWS. 1 Dozen Pack. Razorheads attached. Specify arrow length and bow draw weights.

No. 8565 As above in 1/2 Dozen Pack.

4 STEMMLER GREEN FIBERGLASS ARROWS.

A fine economy arrow constructed with the same fiberglass as top-flight, Duraflite shafts, perfect for the archer and bow hunter who wants performance with economy.

TARGET ARROWS. Specifically designed for schools and camps that require good durability with performance. Available in full length, 26", 28", and 31" draw lengths. Bow draw weights: 25/30, 30/35, 35/40 and 40/45.

No. 8210 STEMMLER GREEN FIBERGLASS ARROWS. 1 Dozen Pack. For those who do custom work, these arrows are packed full length with No. 8911 internal adapters in a separate packet for shop installation. Specify bow draw weight.

No. 8220 STEMMLER GREEN FIBERGLASS ARROWS. 1 Dozen Pack. Fitted with Swap-Point target points. Specify arrow length and bow draw weight.

No. 8225 As above ½ Dozen Pack.

HUNTING AND FIELD ARROWS. The dual purpose flexibility and olive drab color make this arrow a favorite of bow hunters. Available in full length, 29" and 31" draw lengths. Bow draw weights 40/45, 45/50 and 50/55.

No. 8200 STEMMLER GREEN FIBERGLASS ARROWS. 1 Dozen Pack. For those who do custom work, these arrows are packed full length with #8911 internal adapters in a separate packet for shop installation. Specify bow draw weight.

No. 8230 STEMMLER GREEN FIBERGLASS FIELD ARROWS. 1 Dozen Pack. Fitted with No. 89 field point. Specify arrow length and bow draw weight.

Bow-Fishing Equipment

You move towards the big fellow as he treads momentarily close to the surface. You're very careful that your shadow does not betray you. You nock your arrow onto the bowstring and soundlessly draw back. Steady. Release. Below, there's a momentary thrashing at the surface. The fish begins to lung and take line. Then silence.

Reel him in. He's yours. And so is all the fun of one of the oldest sports the world has to offer . . . BOW FISHING.

No. BFS-1 SPECIAL BOW-FISHING SET. Handsomely boxed. Fiberglass Arrow, Aluminum Bow Reel. 60 feet of line.

No. 86 DOUBLE BARB FISH POINT. Pointed tip unscrews and barbs may be removed. Head then is a fine Field or Target Point. Packed three heads per blister card.

No. 91 THREE INCH ALUMINUM FISH POINT. Sharp point with side fluke. A very efficient head that holds fish. Packed three heads per blister card.

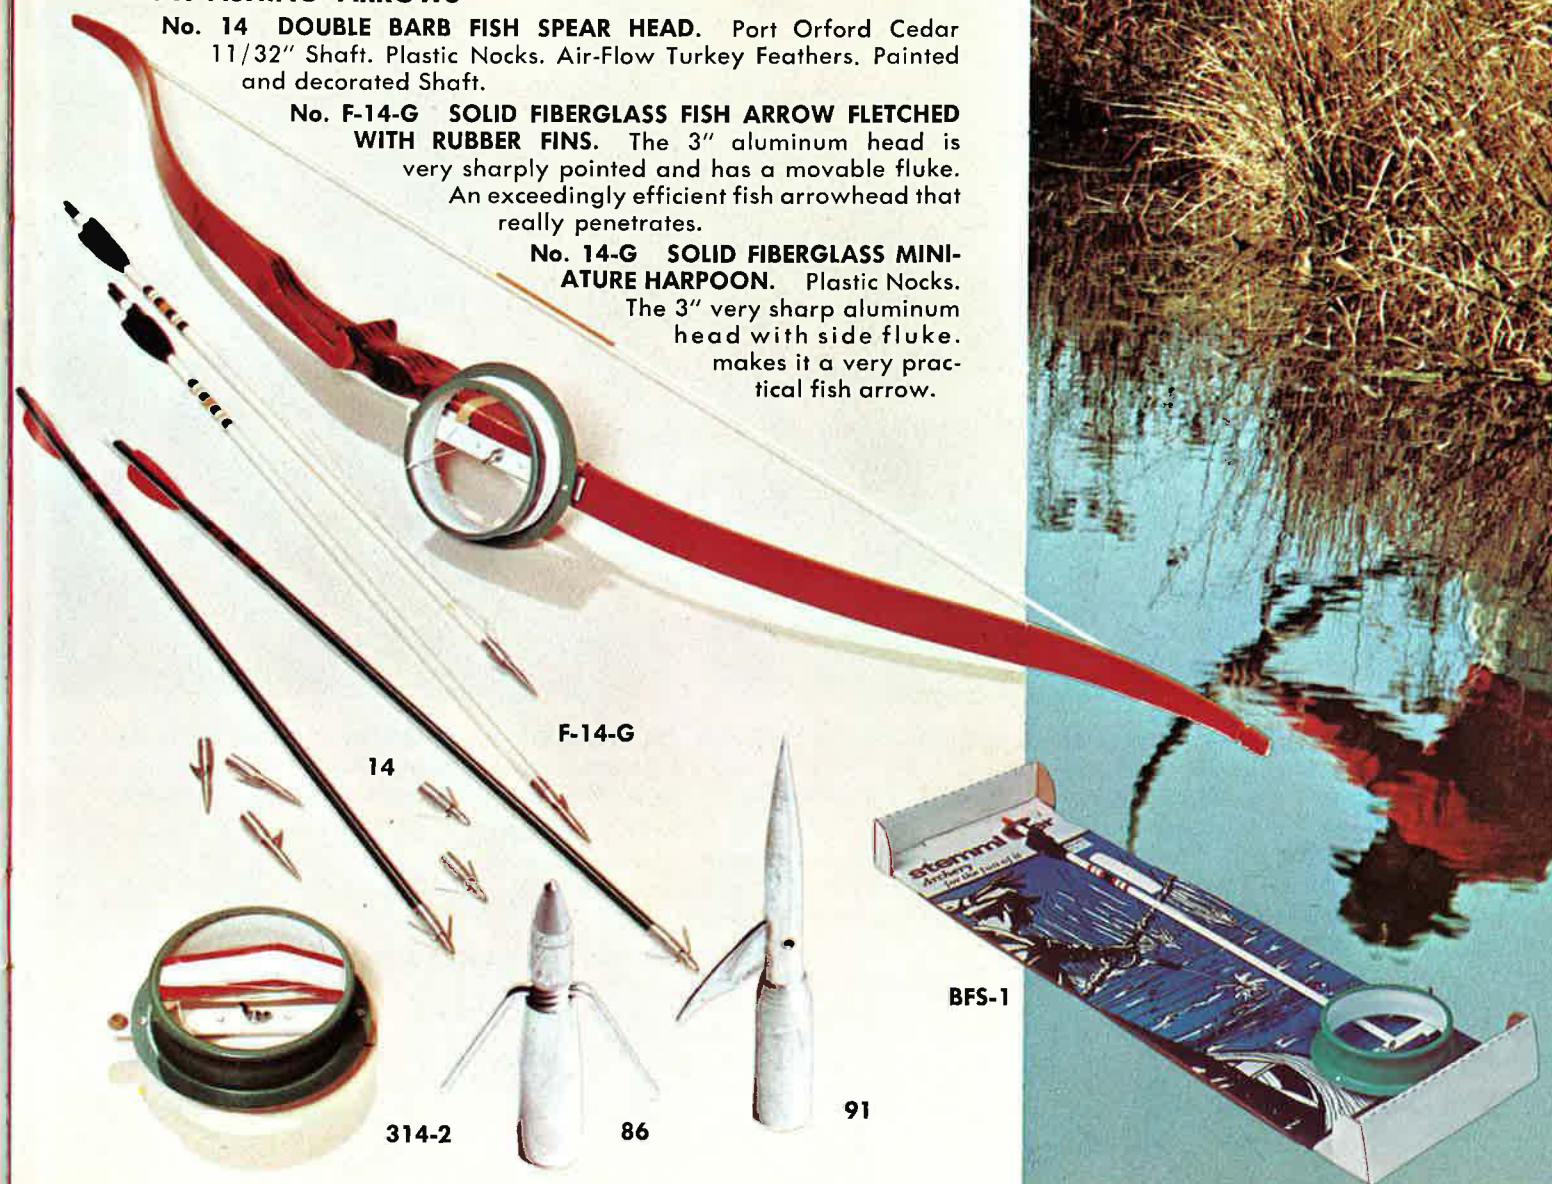

No. 314-2 DELUXE ALUMINUM BOW REEL. Sturdy 6" diameter. Reel bracket tapes to bow. Reel dismounts from bracket. Rubber grommet holds line firmly before shot. Beautifully finished. Sixty feet of line included.

BOW-FISHING ARROWS

No. 14 DOUBLE BARB FISH SPEAR HEAD. Port Orford Cedar 11/32" Shaft. Plastic Nocks. Air-Flow Turkey Feathers. Painted and decorated Shaft.

No. F-14-G SOLID FIBERGLASS FISH ARROW FLETCHED WITH RUBBER FINIS. The 3" aluminum head is very sharply pointed and has a movable fluke. An exceedingly efficient fish arrowhead that really penetrates.

No. 14-G SOLID FIBERGLASS MINIATURE HARPOON. Plastic Nocks. The 3" very sharp aluminum head with side fluke. makes it a very practical fish arrow.

Stemmler Accessories
