

"I must say I'm ecstatic upon receiving the good news! From the center of my heart I want to thank you and your team so much for all your generosity and support. As hard as it's been for me and my children, you all have really given my family hope. God bless your organization and each member. I would love to have my family photo shared on your website and social media so I'm enclosing the signed consent form in this email. We will carry your organization in our hearts always and hope to some day give back or pay it forward."

- The Smith Family
