

SHEET METAL PRODUCTS

DAMPER OPTIONS

DAMPER HARDWARE OPTIONS

The damper options below are available on all fittings. We offer a variety of damper styles - our standard damper, an economical extended handle damper and a Build-Out with a locking quadrant. Our Damper blades are fabricated with quality hardware including stamped handles, spring loaded & solid end bearings, 2" extensions and stand offs with locking wing nuts. Standard Damper construction is 26 ga. Thru 12" Diameter and 24 ga. above. Heavier Damper gauges as well as Stainless Steel and Aluminum are available. Contact the Factory for availability of other damper hardware options.
