DRAW WEIGHT: 36.5# (Marked 35#)

AMO LENGTH: 69"

PRICE: \$299.00

SHIPPING & HANDLING: \$39.00

TOTAL COST: \$338.00

This is a nice very rare Blackhawk King target bow.. While mid-range Blackhawk hunting bows such as the Avenger and Bee appear on Ebay on a regular basis, the high-end Blackhawk target bows come up for auction maybe once every 10 years. Great looking and performing recurve. It is 69" long and has a comfortable man-sized grip. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. Two filled sight screw holes on the upper face limb (enlarge page 4 and look at the far right pic). This is also some discoloration on the upper face limb. No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Decal is in very good shape. Overall, this is an exceptional bow. This bow was put to a stress test (held at full draw for 16 hours to make sure the old glues still held and no stress cracks developed. Then taken to the range and test shot. Comes with a new 14 strand Dacron string..
