Winning Mood Soccer Academy Harmony Municipal Fields, Harmony, NJ

Located off Route 519

Sponsored by The West Jersey Soccer Club

Dear Parents and players,

We will be inviting all surrounding High School Coaches and Soccer Town Coordinators from the Warren Hills, Phillipsburg, Belvidere and Hunterdon communities. We hope all that come enjoy the Dutch Training Sessions. These guests may also record/tape or write down any of the training sessions they see. A few training sessions for younger players will be given free of charge to the soccer coordinators for their town teams. We hope this will be great educational experience for all who attend.

Winning Mood Soccer Academy

The Winning Mood Soccer Academy Camp is an international cooperative effort that offers players an incomparable soccer learning experience. International known coach and educators Ton de Hoop and Jeroen de Hoop of Holland are the directors of Winning Mood. They bring with them a first rate corps of Dutch professional coaches. All these coaches are extensively trained. They are Royal Dutch Football Union (KNVB) A or B licensed coaches who have received four years of instruction and supervision from Coach de Hoop and the CIOS Sports Academy in Arnhem, Holland. These professionals provide players with an unforgettable, challenging and rewarding week of soccer. Specialized attention is given to all players.

Winning Mood Philosophy

The Winning Mood philosophy is focused on the concept that soccer players must be able to perform a variety of skills and tactics on demand. They must know WHAT to do, WHEN to do it and HOW to do it. As a player develops skills and becomes more effective and confident, the more he or she can contribute to the success of the team. For these reasons, ball control skills and tactical development receive top priority at a Winning Mood Camp.

The Winning Mood philosophy is based on the soccer technique development of Wiel Coerver, known internationally as a master teacher of soccer skills, the coaching philosophy of the KNVB and the philosophy de Hoop himself developed during his years working with hundreds of coaches and players. The theories and practices of Winning Mood have been tested by more than 150 soccer clubs, results have been consistently positive – the players performed better, and more importantly, the team's performance improved.

Director of coaching

Ton and Jeroen de Hoop are known for their outstanding ability to teach the game of soccer at all levels. Both coaches have a special knack for achieving impressive results with younger soccer players. In addition to being directors of coaching for Winning Mood, these charismatic masters of soccer are also professor at Holland's Central Institute of Education (CIOS Academy), where they train Holland's top professional soccer coach candidates and instructors at the National Sports centre of the Royal Dutch Soccer Union.

Ton and Jeroen de Hoop believe in providing first-hand instruction. They personally developed each instructional curriculum and are present at the field sessions in order to direct their coaches and personally share their valuable knowledge and experience with all campers.

Camp staff

Coaches de Hoop brings a staff of professionals from Holland. They have had at least four years of exclusive youth and soccer development trained under their guidance at the CIOS. **Each staff has received the same professional coaching preparation so they provide consistent, quality instruction that produces outstanding soccer learning experiences.**
