

WE TOOK THE NEXT STEP

Making our weekend was life changing for my husband Victor and me. When my daughter asked me to go on a Cursillo weekend with her I asked my husband if he would mind taking a couple of vacation days to drive me to Rockford County, Illinois. I wanted to meet my daughter and go with her because she never asked me for very much. Neither Victor nor I had ever heard of Cursillo here on the east coast or Philly.

My husband would stay with my son in law and grandchildren while I left for cursillo with my daughter, Jan. Not knowing anything of what to expect, everything was a surprise and I loved every minute of it. We worshipped, slept and ate together for 3 days without the outside world to distract us in any way. We couldn't help but grow closer to Christ with Mass, Sacraments, confession and Adoration to guide us along with some beautiful reviews of our faith.

All of us women candidates really did live in community with one another. There was laughter and song and spiritual contemplation for all. With God as the primary objective we grow closer to Him.

It's a once in a lifetime experience that you will never forget.

The following year my husband and I drove out to Rockford County once again because our son in law sponsored my husband for his weekend.

Since our Cursillo experiences, we have been spending most of our time working for Our Lord and evangelizing every chance we get: This has brought us closer to each other as well as closer to Our Lord. We also have made some lasting and wonderful friendships through Philadelphia Cursillo.

If you are Catholic and wish to draw closer to Christ in love and community, come and take the next step on your faith journey!

De Colores!
