

INFORMATION FOR CONTRACTORS

This apprenticeship program is certified and registered with the State of Florida. Students are required to attend class and work in order to obtain their State of Florida certificate. The State of Florida requires a student have 72.5 hours of class time per term = 145 per year. Students are also required to obtain 8000 OJT hours in order to graduate/complete the program = 2000 per year. This means students cannot work late and miss class unless there is an absolute emergency and another employee cannot replace the student on the job site.

General Overview of Curriculum (*many more topics are covered throughout each student year*):

Year 1 ~ Term 1:

Applied Math
Electrical Safety
Electrical Theory

Year 2 ~ Term 1:

Alternating Current
Motors: Theory/Applications
Pull and Junction Boxes

Year 3 ~ Term 1:

Load Calculations
Hazardous Locations
Distribution Equipment

Year 4 ~ Term 1:

Health Care Facilities
Standby/Emergency Systems
Advanced Controls

Year 1 ~ Term 2:

Hand Bending
Basic Elec. Constr. Drawings
Conductors and Cables

Year 2 ~ Term 2:

Conductor Installations
Grounding and Bonding
Control System/Fund. Concepts

Year 3 ~ Term 2:

Transformers
Commercial Electrical Services
Motor Calcs. and Controls

Year 4 ~ Term 2:

HVAC Controls
Motor Operations/Maintenance
Journeyman Prep

****We are a program that grows with contractor and student needs, as well as State requirements.****

**We care about the safety of our students and our contractors.
SAFETY is a priority on every job site. We invite a certified, guest instructor
to train all of our students so that they may be certified in**

OSHA 10.

BENEFITS OF BECOMING A PARTICIPATING MEMBER-CONTRACTOR

There are many benefits to becoming a member of the Brevard Electrical Apprenticeship Training Program:

- 1) Students are educated by individuals actually working in the electrical trade. These individuals understand the local and state regulations and requirements placed upon contractors today.
- 2) Instructors are required to be a Licensed Journeyman.
- 3) Textbooks are based upon the Journeyman Exam and Electrical Code Book that are currently being used in the State of Florida.
- 4) Students are OSHA 10 certified.
- 5) Students receive a balance of education from the instructors and field experience from their employer at the same time. This hands-on experience helps the student to put together mentally and physically the various levels of knowledge that they need in order to perform their duties well.
- 6) Contractors are invited to contact the apprenticeship office anytime they are planning to hire a new person. The apprenticeship office keeps a list on hand of current students looking to obtain employment. Rather than a contractor putting out an ad, they are able to contact individuals that are already interested in becoming educated in the electrical trade.

BECOME A PARTICIPATING MEMBER–CONTRACTOR

Students need to be working with a Member–Contractor in order to be registered with the State of FL and receive a State of FL certificate upon fulfilling the requirements to graduate from the program.

Steps and Requirements of a Participating Member–Contractor:

- 1) Company needs to have a valid and current electrical license with the State of Florida.
- 2) Contractors need to fill out a State of Florida “Apprenticeship Participating Employer’s Agreement”, which is shown below.
- 3) Contractors are required to pay minimal quarterly membership fees to help cover the cost of education. So contractors will need to fill out a BEATP “Employer/Committee Agreement”. Please call the office to request this form. There are 2 forms to choose from, and someone in the office can help you determine which form is best for you. Then they will email that form to you for you to complete and return.
- 4) Contractors are required to abide by “The Florida Department of Education, Division of Career & Adult Education – Standards of Apprenticeship for Brevard Electrical Apprenticeship Program GNJ”.
- 5) Contractors are required to pay the minimum wage amount (*or more than the minimum if the contractor so chooses*) per the Wage Scale as listed in the “Standards of Apprenticeship”, which are based on the amount of OJT (*On the Job Training*) hours on file with the BEATP office. It is the students’ responsibility to turn in these OJT forms on a monthly basis, but the contractor is advised to check with the student and/or the apprenticeship office on occasion about these hours and current wage for student.
- 6) A Wage Survey is sent to all contractors every Spring in order to determine the new wage scale for the upcoming student year. All contractors are requested to participate in this in order to obtain the most accurate survey possible. A copy of the wage scale is given to all member–contractors.
- 7) Students are only allotted three (*3*) absences per term. This is three TOTAL, whether excused or unexcused. Per the “Standards of Apprenticeship” contractors are not allowed to have students work late and miss class. On Page 3, Section IV ~ “Overtime will not interfere with the apprentice’s attendance in related technical instruction. 6A-23.004(1) FAC”. **Contractors agree to not prevent students from attending class in order to work late.**

APPRENTICESHIP PARTICIPATING EMPLOYER'S AGREEMENT

PROGRAM# FL 0 0 8 8 5 0 0 2 0

EMPLOYER FEI/EIN

This agreement made at Melbourne Florida between (hereinafter referred to as Employer) and Brevard Electrical Apprenticeship Program GNJ (hereinafter referred to as Program Sponsor)

WITNESSETH: That for and in consideration of the mutual covenants and promises herein contained, the parties agree as follow s:

I. PARTIES: The parties to this agreement are: (Employer)

Name, address, city, state, zip, and phone/fax numbers for the Employer.

Name, address, city, state, zip, and phone/fax numbers for the Program Sponsor.

II. TERMS: The term of this agreement shall commence upon execution by both parties as indicated by the dates set out below and shall continue in force and effect until terminated as herein provided.
