

Remote DBA Services

QCG's Professional Services:

Database Health and Performance Monitoring

Is your system slow and suffering from poor performance?

QCG can help, we offer cost-effective support for on-prem database platforms.

There is simply nothing like working with QCG's database experts when it comes to identifying server bottlenecks and reducing application response times.

Make your user community happy

Maximize your IT investment and get the best performance out of the infrastructure you already have.

With the help of QCG's team, you can learn the root causes of your slow database performance without putting additional load on your database or having to purchase or upgrade hardware.

Expertise with databases & report writing:

- SQL Server
- MS Access
- Crystal Reports
- Oracle
- MySQL

Contact QCG today: Gain peace of mind and free up your team for more important IT responsibilities.

QCG is a Woman Owned, ITAR compliant Professional Technology Services organization.

Improve database performance without adding costly hardware or software

...Invest in peace of mind

Security – data integrity - stability - performance

REMOTE DBA - SERVICE DETAILS

QCG can augment your internal IT employees with our Oracle and SQL database administration experts, each with years of experience and proven track records. Our Oracle & SQL database administrators have years of experience, helping clients, just like you.

We provide end-to-end database management and optimization services, remotely connecting on a quarterly basis, to perform preventive maintenance, and performance optimization, as well as our support services, detailed below. We do all of this for a low quarterly cost.

We review all database logs, assess and resolve any issues encountered, identify any pending upgrades and / or security improvements or patches**. During these quarterly tune-ups, we also prevent slowdowns and resolve root causes of any database crashes over the past three months. We follow industry best practices to provide you with peace of mind.

Contact us today to find out how to ensure the integrity and performance of your database at a low, quarterly cost.
