Arkansas City Train Show – Exhibitor Space

August 1st, 2017

Continuing from WTTC's past practice we will give the first opportunity to provide space to exhibitors who have supported our shows in the past. Registration for exhibitor space at this year's show is due back to the address listed on the registration form by September 30, 2017. During the month of October postcards announcing the show will be sent out. In total over 1,400 postcards and flyers will have been printed and distributed to make this show a success. No selling of merchandise will be allowed in the exhibitor areas without the permission of the show coordinator. You will need to furnish your own electric cords as outlets are along the outer walls.

We are looking forward to a good show again this year. This year's show will be our third time for the Arkansas City location. Area residents and businesses are looking forward to this event. We have been working with the Arkansas City Convention & Visitors Bureau once again this year to make this event a success. We have been awarded an advertising grant to help promote this year's show. Members of your group actively helping with your display will as always be admitted to the show at no charge. Early Friday setup times will be allowed with approval of the show coordinator. Thank you for your support with helping the Wichita Toy Train Museum in promoting the hobby of collecting and operating model trains. We hope that you can make it to our show this year.
