Vaccination Facts:

- Unless you live in Mississippi, W. Virginia, or California, **your child does not have to be vaccinated in order to attend school.**

Currently, other states in the US still have philosophical and/or religious exemptions.

- Learn about your rights and about the laws in your state:

www.nvic.org/vaccine-laws/state-vaccine-requirements.aspx

- Ingredients in most vaccines include: **aluminum***, **glutamate** (MSG), **mercury** (thimerosal)*, **aborted fetal cells**, **polysorbate 80** (associated with infertility), **monkey kidney cells**, **antibiotics**, **egg proteins**. *These ingredients are **poisonous** to the brain and nerves and **are not recommended** to be ingested on **any** levels.

- Total adverse reactions to vaccinations that have been reported to the Vaccine Adverse Events Reporting System (VAERS) as of August 1st, 2016 equals **1,786,134** (The CDC estimates that **only about 10%** of adverse reactions or events are reported)

- Possible reactions/events include: **Neurological problems** including **paralysis**, **speech regression**, **ADD/ADHD**, **autism**; **severe allergic reaction**, **vomiting**, **high fevers**, **facial palsy**, **blood and lymphatic system disorders**, **convulsions**, **death** and **more**.

- The National Vaccine Injury Compensation Program has paid out over **\$3.3 billion for vaccine injury** claims.
