For the Sweet Treat Lover

G.H. Cretors has a Limited Edition collection of seasonal popcorns including Orchard Apple Caramel Corn, Pumpkin Spice Caramel Corn and Double Chocolate Caramel Corn. They're made in copper kettles with all-natural, non-GMO ingredients like cane sugar, brown rice syrup (a non-GMO alternative to corn syrup with a lower glycemic impact) and butter which are all heated over a flame to develop a rich, complex flavor. Freshly popped popcorn is then hand-mixed with the caramel to ensure each kernel is coated with buttery caramel.

The Limited Edition flavors are completely free of artificial colors, flavors, and preservatives and are gluten-free and kosher.

The Orchard Apple Caramel Corn is sweet and tart, combining caramel corn with large slices and chunks of real Granny Smith and Fuji apples. Double Chocolate Caramel Corn is decadent and indulgent, made with white and dark chocolate, whole almonds, and whole cashews. Reminiscent of a pumpkin pie, Pumpkin Spice Caramel Corn is made with real pumpkin, whole pumpkin seeds, large walnut pieces, and an autumn-inspired spice blend of cinnamon, nutmeg, ginger, and cloves.

The goodies come in 8-ounce bags (\$5.99) and are sold in natural food and mainstream grocery stores through the end of December. For more information, visit www.ghcretors.com. They're available at Publix, Whole Foods, Richard's Fresh Market and SuperTarget.

For the Chef

Here's a great stocking stuffer for the gourmet chef on your list. The Microplane Garlic Cutter transforms peeled garlic cloves into uniformly cut, delicate strands within seconds - all with minimal hand contact, effort, or mess. Unlike a garlic press, which crushes cloves into a paste, the Garlic Cutter produces finely textured garlic pieces that retain all of their natural oils for optimum flavor in all food tasks, such as sautéing vegetables, or making vinaigrettes.

Sporting a modern square shape with rounded edges, the Garlic Cutter's diminutive, space-saving dimensions belie the small tool's ability to accommodate up to three cloves of garlic at a time. Within seconds, the precisely grated garlic falls into the transparent lower chamber, which is easy to view and keeps cutting boards and plates mess-free.

To avoid waste, and help speed cleaning, a removable scraper is integrated into the bottom of the lid for scraping the bottom of the blade, as well as scooping prepped garlic out of the container. Priced at \$14.95, the Garlic Cutter is top rackdishwasher safe.

Comes in two colors: Black and Red and are available at stores nationwide. The Garlic Cutter in Red is sold exclusively at Sur La Table. For more information, visit www.microplane.com.

For the Friend who Loves to Entertain

Designed for both commercial and residential use, PubWARE can withstand the harshest of conditions, but still look elegant enough for use in home dining rooms, wineries and restaurants. PubWARE is BPA-free, dishwasher-safe and microwave-safe.

Made using a new proprietary molding process, PubWARE's Stemless Wine Glasses (12 oz.) are comfortable in the hand, perfect for enjoying a red wine or keeping a chardonnay chilled longer. A set of four stemless wine glasses retails for \$49.99.
