

**MEMBERSHIP DEVELOPMENT & RESOURCE TEAM**  
**JUNE 3, 2023 BOARD MEETING REPORT**

At the April DCCW Convention, we filled the MDR information table with sample resources from NCCW, DCCW, and St. Anthony's CCW. We also had our newly revised MDR Brochure. We hope you all stopped by to take a look. Unfortunately, the signup for additional information or to schedule an MDR visit was blank. However, many of the brochures were taken!

While no one signed up at convention, we did hear Immaculate Conception in Copperton is interested in affiliating. However, it was just through the grapevine, and we don't have a contact to confirm and see if it's true. If anyone has information, please let us know. As many Councils take the summer off, and the NCCW August convention and July Eucharistic Revival are coming up fast with both requiring many volunteers, we're hoping we can get something going with Copperton in the early Fall. In the meantime, if a contact name can be gotten, we've asked the Wasatch Deanery to invite them to their June meeting.

We did also get a request through our website from Catalina Vasquez for information on starting a ladies group at St. Pius X in Moab. President Kerouac responded for us with an email and sent her the "Introduction to NCCW" found on the NCCW website, which has details on how to start a Council. Catalina is new to the Moab area, but was active years ago at San Andres, so she is familiar with Council. With summer here and Moab being a "heat" hot tourist destination, we're hoping to get down there in the Fall. (A location that far, needs planning!). We don't want this potential new affiliate to get away!! President Kerouac did invite her to our September meeting, which will be in the Eastern Deanery. When things slow down, we'll get back in touch with Catalina and see what kind of headway she's made.

Please keep MDR Chair, Michael O'Shea, and her husband, Michael, in your prayers as together they battle his health issues. We hope you all have a safe and blessed summer. Take time to rest and rejuvenate. I think we could all use the R & R!

Michael O'Shea and Bonnie Siegrist
