Stephanie,

1/28/15

As we discussed the other day on the phone it would be impossible to try to do just a single unit on your buildings in bay Crest.

One reason is that the tiles on your roofs are discontinued. The profile (Shape) of the tile has changed. All manufactures make their tiles different from each other so you can't use their competitions tile instead of theirs. Also the dimensions of the tiles are all different in height and width. For these reasons is why the whole roof needs to be done at once.

Any other questions feel free to give us a call at the number above  
Glenn Martin
