

Nece's Plumbing & Heating, LLC is proud to offer the opportunity to become a *NEW* Priority Customer! Here is how it works:

BECOME A PRIORITY CUSTOMER

When you Purchase a Seasonal Package*

* Note Package Options

What is a seasonal package?

In lieu of being billed and paying for individual seasonal property Winterization and De-Winterization (Turn-On & Turn-Off) services as they come, sign up for a seasonal package. Pay a one-time, annual flat rate charge and receive bonus services at discounted rates, along with the benefit of receiving *PRIORITY SERVICE* when scheduling.

What else do you get?

Included in your package, receive one annual Plumbing Inspection during your Spring Turn-On at 40% off of our standard cost. During inspection, if items such as toilets and faucets require general maintenance with the replacement of parts, we will make the necessary repairs while on the job at no added "*labor*" costs to the customer. Just pay for the costs of material.

Additionally, get bumped to the front of the line *with* Labor Protection! Priority Customers who place calls for service throughout the year (calls must be placed by 3pm) will be served first and receive guaranteed service that day with no overtime labor rates.
