

SITE HAZARD ASSESSMENT

Project Name:

Project #:

Date & Time:

Conducted By:

At the start of the project, the Project Managers, Superintendents and Safety Department will evaluate the potential hazards on the worksite. After this initial Hazard Assessment, The Superintendents/Safety Department and at least one employee will evaluate the current and future potential hazards on a weekly basis.

Status: √ Indicates Adequate Controls in Place. X Indicates Action Required. N/A Indicates Not Applicable.

PRIORITY RANKING

SEVERITY

1. Immediately Dangerous - Action Required (death, disaster)
2. Serious - To be Corrected by end of Work Day (major injury or damage)
3. Minor - Corrective Action Implemented / Ongoing (non-serious injury or damage)
4. Negligible - Non Risk Issues / Still Requires Follow up (first aid or less)

PROBABILITY

- A. Probable (immediate or soon)
- B. Reasonably Probable (eventually)
- C. Remote (could at some point)
- D. Extremely Remote (unlikely)
