

August 24, 2016

Dear Texas Chapter of the American Academy of Orthotists and Prosthetists,

As students of the Prosthetics and Orthotics profession, we would like to take this opportunity to thank you for your generous gift. The Orthotics and Prosthetics in Rehabilitation textbook is an extremely useful source that will aid us during our education at UT Southwestern and continue to serve as a reference throughout our career.

We greatly appreciate the Academy's efforts in raising the standard in patient care and its dedication to promoting professionalism as the O&P field moves forward.

Once again, thank you for this wonderful resource and we hope that we may serve our community as skillful and honorable health professionals of the future.

Regards,
University of Texas Southwestern Medical Center
