

You Design It. We Finish It.

The ABCS (Admixtures, Bonders, Cleaners, and Sealers) product line offers a family of solutions for stucco and masonry projects.

Stucco Cleaner

From the leading manufacturer of stucco products, Omega Product's Stucco Cleaner is designed to dissolve dirt and typical stains from stucco walls and similar products. It is a concentrated, water-based detergent that will penetrate the surface to help remove stains without damaging the finish. Regular cleaning of stucco walls will keep them looking new for many years.

AkroLoc (Acrylic Bonder)

An Acrylic Bonding Agent or Admixture

AkroLoc is a 100% acrylic polymer bonder or admixture for cementitious products. AkroLoc can be used in bonding new cement-based products to a variety of existing properly prepared substrates and as an admixture to reduce cracking and increase tensile, bond, and flexural strength of approved products.

Admix 500

An Acrylic Admixture

Admix 500 is a 100% acrylic polymer admixture for cementitious products. Admix 500 is used to increase tensile, bond, and flexural strength of approved products.

PolyLoc (PVA Bonder)

A Poly-vinyl Acetate Bonding Agent or Admixture

PolyLoc is a poly-vinyl acetate (PVA) based bonder or admixture for cementitious or gypsum plaster products. PolyLoc can be used in bonding new cement-based or gypsum-based products to a variety of existing, properly prepared substrates and as an admixture to increase tensile, bond, and flexural strength of approved products.

AquaShield

Water Repellant Admix for Stucco and Mortar

AquaShield is a powdered admixture designed to increase the water-resistance of ColorTek Stucco, mortar, or other approved cementitious products. AquaShield is added during mixing and offers the benefits of long-lasting water-resistance without the extra time and expense of applying a sealer.

Bondcrete

A Plastic Type Bonding Agent for Cementitious Products

BondCrete is a liquid bonding agent composed of a polyvinyl acetate homopolymer resin. Used to bond new portland cement-based and gypsum plaster products to existing properly prepared cement-based substrates.

OmegaGuard (Water Repellent)

A Silicon-based Sealer

OmegaGuard is a silicon-based, clear, non-yellowing water repellent designed to seal porous, cement-based substrates such as stucco, brick, masonry, and other concrete surfaces. When properly applied, OmegaGuard will offer long lasting protection from the elements while retaining the surface's natural appearance and vapor permeability.

OmegaGuard Plus

A Silane/Siloxane Sealer

OmegaGuard Plus is a silane/siloxane-based, clear, non-yellowing water repellent designed to seal porous substrates such as stucco, brick, natural and manufactured stone, masonry, concrete, and other cement-based vertical or horizontal surfaces. When properly applied, OmegaGuard Plus deeply penetrates the surface for long lasting protection from the elements, water-based stains, and some oil-based stains while retaining the surface's natural appearance and vapor permeability.

OmegaSeal 1000 (Penetrating Sealer)

A 100% Acrylic Sealer

OmegaSeal 1000 is an acrylic-based, clear, non-yellowing sealer for use over a variety substrates, including stucco, acrylic finishes, masonry, and other concrete surfaces. When properly applied, OmegaSeal 1000 forms a continuous protective film over the substrate's surface to offer long lasting protection from the elements.

E-FX Admix

An Efflorescence Reducing Admixture

E-FX Admix is designed to help reduce efflorescence and improve the performance in approved cement-based stucco products. When added to the material, E-FX Admix will offer long lasting protection from the elements while retaining the surface's natural appearance and vapor permeability.
