### **Graduate Update – Dominic Mattock**

At the end of this semester I will be graduating from Truman State University with a BS in Chemistry and a BA in Biology. After graduation I plan to attend graduate school for Chemical Biology at the University of Wisconsin-Madison, Minnesota, or Michigan Ann Arbor. I'm still undecided where I will be going for now as I am touring the schools and talking to professors to try to find the best fit for me but no matter where I end up deciding to go I am excited to be taking this next step in my life!

### **Heartland Presbyterian Center – Summer Camp The Best Week of Your Summer**

Heartland's campers and staff consistently tell us that their weeks at camp are the best weeks of their summers. But how else would you describe a week where deep relationships are forged in the midst of mind-blowing fun? Our campers experience and listen to what we believe is the greatest love story ever told. What's even more exciting is that what we hear every week, we've heard for the last 60 years. Come experience the life changing grace of Jesus Christ and have new adventures in the outdoors at Heartland Camp this summer. Heartland is making this experience more affordable to our families. Half week camps starting at \$159 and full week camps are \$399. Scholarships are available, because we never want the cost of camp to get in the way of kids hearing about the Good News of Jesus Christ. Grandparent/Grandchild camp is also offered this summer.
