

Connor Sabo Fishing Report
Skeena River - July 5, 2016 1:04pm

Happy Canada Day!

No better fishing partner then your dog!

My [Yamaha](#) outboard jet and [Fish-Rite](#) boat got me and my dog to the "hot spot" quickly and safely!

Good to know [Yamaha](#) is sold and serviced right here in Terrace BC by [Ken Marine](#). It is a very popular motor in this area.

Water was in great shape but the fishing was a little slow but we still managed to hook a few. Looking forward to a good feed of Chinook Salmon tonight for supper.

I've been wearing [Simms](#) waders for years and highly recommend them.

Three pics below:

My "new" puppy is just starting to get used to fishing. It won't take him long!

Connor Sabo Fishing Report Skeena River - July 8, 2016 8:08am

Took 5 days off fishing.. But it being my birthday I had to go get myself a chrome slab... Didn't even realize I was hooked up until I looked over at my rod bent to the water and by the time I got to it half my line was gone and the fish was in the middle of the river!! Got er back though.. **Great birthday fish!!! - Correction** by Noel, *"I just realized this pic was taken on July 8, 2015 not 2016."*

See you on the water soon! More reports to come on other rivers and oceans too, please

stay tuned...

Connor Sabo Fishing Report
Douglas Channel - July 10, 2016 11:55am

Beautiful day to pull some crab traps

So it was a nice calm Saturday morning, perfect for a crab fishing trip as the water was almost like glass. After a 15 minute boat ride down the channel we arrived to our spot, dropped the traps and while we waited we went beach combing. After an hour we set back out to pull the traps and even before 6:30am we were limited out!! Nothing but good things to say about the crab fishing in **Douglas Channel** Kitimat BC.

If you are looking for a crab fishing set up I personally recommend [Fish Tales Fly & Tackle Shop](#) in Terrace BC as they have a great selection of traps, rope and floats! For bait I like to use salmon heads; find a nice sandy bay and drop your traps from 30-90 feet of water and you are fishing!!

My [Fish-Rite](#) jet boat gets me out in the salt also...

My new pup getting the "hang" of the saltwater

Pass the garlic butter please!

[Yamaha](#) works well on the salt!

See you on the water soon! More reports to come on other rivers and oceans too, please stay tuned...
