

## Submission Application

ARTspace and The Lower Thames Valley Conservation Authority invite you to submit one piece of art in any medium to an upcoming community arts show and sale exploring themes related to Climate Change.

When it comes to Climate and the Environment, there is little room left for controversy. Even if you perform the mental gymnastics necessary to question the warnings of scientists, who can deny that human influence on the environment has grown beyond anything the planet has yet seen or known? As we approach this human epoch, it is time to reimagine, re-invigorate, and re-establish the kind of world in which we wish to live while we still have the option of doing so.

Above all else, climate change is a cultural question. The science is irrefutable: technology advances in giant strides every day. What is missing, however, is the willingness to harness our capabilities and address the problems we have created, to imagine new and better ways of being in the world. Art can play a major role in this reimagining.

Participants are encouraged to create works that speak to the climate crisis and activate and strengthen community connections. Artists are encouraged to reflect lived experience and search out ways in which this crisis can be approached on a local level.

The purpose of **ART + CLIMATE = CHANGE: This Changes EVERYTHING**, is to create awareness by pursuing, through art, creativity, ideas and solutions on the issue of climate change. **Deadline: April 28, 2020 at 5PM.**

**Please submit this form and deliver artwork on April 27, 28, 2020 from 12-5PM at ARTspace**
