DESCRIPTION: This old Bear Panda is a great youth bow for a RH or LH archer. Maple riser. Bow has no delamination; no cracks; limbs are straight. I replaced the old leather grip with a new one. I added maple tip overlays to strengthen and beautify the tips of the limbs. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. There is a long filled/fixed stress line on the back limb (see pic on p. 4). A few minor scratches and nicks here and there. Decals are in good shape. Overall, this is a really nice bow in excellent condition for its age. This bow was put to a stress test (held at full draw for 16 hours to make sure the old glues still held and there were no stress crack issues. I recently took it to the range to make sure it shoots OK. Comes with new plastic flipper rests on both sides, and a good slightly used Flemish string.
